THE SENIOR CLASS OF 1955
Madison High School
Madison, Ind.

OUR DEDICATION

We, the members of the graduating class of 1955, realizing the seriousness of another world conflict, have symbolized a power plant as a pictorial pattern for our lives. During our construction period in Madison High School we have attempted to establish a foundation which will not succumb to the storms of life. Three towering smoke stacks are symbolic of traits needed to attain a better world for all: brotherly love, integrity, and patience. With charity toward all, with uprightness of purpose, and with the endurance of job we may produce steam and generate a current capable of influencing those about us.

We consider it appropriate to use a power plant as an example for our lives, because of the recent construction of the Clifty Creek Power Plant and the tremendous effect it has had on our community. At the present time it is the largest power plant of its type in the world. The electrical project has caused an influx of people which will necessitate an expansion of our fair city.

We, the graduates of the 1955 class of Madison High School do solemnly dedicate this Mahisco to all those who have devoted their time to the development of the Clifty Creek Power Plant.

"A BAG OF TOOLS"

Isn't it strange
That princes and kings,
And clowns that caper
In sawdust rings,
And common people
Like you and me
Are builders for eternity?

Each is given a bag of tools,
A shapeless mass,
A book of rules;
And each must make,
Ere life is flown,
A stumbling-block
Or a stepping-stone.

R. L. Sharpe

The poem suggests a question - Why do some succeed and others fail when the same tools are available to all?

All of us are interested in people. We like to watch their actions, habits, pleasures and accomplishments. We then find that all of them want to live. Some people look for life in liquor and miss the way. Some practice immorality trying to find life. Others live abundantly and we wonder why.

Upon inquiry we find a pattern they have followed. In order to get results they have fulfilled the conditions. They have cultivated the roots in order to enjoy the fruit.

A full life has meant a narrow path. Other characteristics are persistent searching, an open mind and discipline. Too much can not be said about the latter. All professions, positions and occupations have standards to be met. If you accept a certain life work you must accept the restrictions or requirements. A minister is regulated. A doctor must not do some things. A teacher must refrain from certain activities. An engineer certainly must be well trained and disciplined. He must think straight. So discipline is absolutely necessary for a full life.

You seniors have found that a full life for you is going to mean doing the things mentioned above. As we grow we must practice these virtues because life is a continuous growth and development. Be keen, be alert, be willing to sacrifice, never stop learning. These will lead to a full life.

E. O. MUNCIE, Superintendent

As I write these few lines, it is the day of the birth of the Great Emancipator, Abraham Lincoln. Many speeches have been made today and hundreds of thousands of words have been written which extol his greatness and his many virtues. But probably his greatest and most far reaching personality traits were his simplicity, his great humanitarianism, his honesty, his straightforwardness, and his willingness to seek and to do the right thing regardless of personal cost or sacrifice.

His place in the history of our country and in that of all mankind is ample proof to all of us that these simple virtues, possessed in such abundance by the great Lincoln, are more than worthy of our emulation and cultivation. His very soul spoke a memorable lesson to us and for us when he said: "I do the best I know how, the very best I can. I mean to keep on doing this down to the very end."

If we, as high school seniors about to assume our responsibilities in life, could capture his spirit when he spoke these simple but significant words and would be willing to shape our lives in keeping with this principle, we surely would have not only a prosperous life, but also a most satisfying one as we would come to realize with him that "no man ever got lost on a straight road." Resolve now to adopt this road, this way of life.

Last Will and Testament

- We, the class of nineteen hundred and fifty five, declare this to be our last will and testament.
- I, Elsie Cosby, leave my success in F. H. A. activities to all future members.
 - I, Kaye Baker, hereby leave my reserved manner and pleasant personality to Carolyn Riley.
 - I, Mary Helen Bauer, do hereby leave my hairdo to Sheila Dowty.
 - I, Patty Bayne, leave my intricate form of walking to Joyce Ford. (Together we can't miss).
