I want to tip my hat to Kevin Yancey, principle at Madison Consolidated High School. As I was returning from my bus route he was out in his street sweeper making sure his campus was clean. I have seen him do this many times before. Keep up the GREAT work Mr. Yancey.

Founded in 1990, North American Stainless (NAS) has undertaken several phases of expansion to become the largest, fully integrated stainless steel producer in the U.S. Although we have achieved much in a short period of time, we remain focused on being the leading provider of high-quality stainless steel in the Western Hemisphere.

History and Experience

Our location in Carroll County, Kentucky, enabled us to build a state-of-the-art production facility on 1400 acres near a major interstate highway and with direct access to the Ohio River. As a "greenfield" project, we had the opportunity to plan the plant layout for maximum efficiency and offer the full range of stainless flat and long products with competitive delivery times. With all of NAS's production lines on site, we avoid the inherent delays that are common in mills with geographically dispersed production

STAINLESS STEEL DUPLEX GRADES

North American Stainless produces duplex grades 2205 and 2304 in both flat products and long products. Type 2205 and 2304 are duplex stainless steel grades with a microstructure, when heat treated properly, of nearly equal proportions of austenite and ferrite.

The higher chromium, molybdenum and nitrogen contents give 2205 significantly improved pitting and crevice corrosion resistance in the presence of chlorides. 2304, also called lean duplex, exhibits excellent pitting and crevice corrosion resistance. These grades exhibit better corrosion resistance than 316 SS in high pH and in presence of the chlorides, making these very suitable for use as rebar for bridge constructions in colder areas to resist road salt.

2205 is a highly suitable material for service in environments containing chlorides and hydrogen sulfide such as marine environments and the oil and gas extraction and processing industries. Typical applications also include the chemical industry, the pulp and paper industry and the mining industry.

North American Stainless is committed to environmentally responsible operations as we continually improve performance and management systems with consideration for environmental impact. This includes the development of a low-emission melt shop and a fully integrated stainless steel manufacturing facility that reduces transportation needs. NAS is a large recycler of steel with a long history of advocacy to reduce waste generation, reuse materials and recycle both metallic and non-metallic materials.

▲ **Beyoncé** led all musical artists with nine Grammy nominations for her latest album "Lemonade." Right behind her was Adele, who received five nominations for her hit album "25," and won Album of the Year.

◀ Twitter discontinued its short-form video service **Vine**. The decision was made so Twitter could focus on live streaming with its Periscope product, rather than Vine's short video loops.

▲ NBA All-Star **Kevin Durant** surprised many when he chose to leave the Oklahoma City Thunder after eight seasons via free agency and sign with the Golden State Warriors.

◀ Netflix TV series "**Stranger Things**" told the story of a 12-year-old boy who disappeared from his Indiana town in the 1980s and the search to find him. The show became a viral hit with more than 14 million viewers in the first month.

◀ **Hurricane Matthew** pounded Caribbean nations before heading up the Southeast U.S. coast, making landfall in South Carolina Oct. 8. At one point, 2.3 million people were without power.

▲ **Donald J. Trump**, billionaire businessman and reality TV show star, was elected as the 45th president of the United States on Nov. 8. While his opponent, Democrat Hillary Clinton, the first woman nominated by a major political party to run for president, received more popular votes, Trump won in the Electoral College, 304-227. He is the first non-military leader and non-politician to win the job.

Trump said it was time for Americans "to come together as one united people." In her concession speech, Clinton said, "Donald Trump is going to be our president. We owe him an open mind and a chance to lead." President Obama reminded Americans that we are "all on the same team."

Trump, a Republican, was inaugurated on Jan. 20 and went to work with a Republican majority in both the House and Senate.

▼ "La La Land," a musical romantic comedy starring Ryan Gosling and Emma Stone was nominated for 14 **Academy Awards**, tied for the most ever by one movie. The nominations included Best Picture, Gosling for Best Actor and Stone for Best Actress.

◀ Samsung's newest Android smartphone, the **Galaxy Note7**, was discontinued after less than two months when it was discovered that battery defects led to excessive heat, causing fires and even explosions.

◀ After 108 years, it finally happened. **The Chicago Cubs** ended the longest championship drought in sports when they defeated the Cleveland Indians in seven games to win the 2016 World Series.

Naturally it wasn't easy, as the Cubs became just the sixth team in baseball history to overcome a three-games-to-one deficit to do it. The seventh and final game dramatically went into extra innings, and through a rain delay, before Chicago clinched an 8-7 win.

The city of Chicago estimated that nearly five million fans swarmed into downtown Chicago two days later to attend the Cubs victory parade.

◀ **The Women's March** on Jan. 21 was a worldwide demonstration in support of women's rights and a variety of other causes, including health care reform and protection of the environment. The March began as an event in Washington, D.C., but companion events were held in cities worldwide and were estimated to involve nearly five million people.

▼ Drug manufacturer Mylan faced harsh criticism after costs of their **EpiPen** injection device, commonly used to treat those who suffer severe allergic reactions, soared to \$600. Mylan responded by releasing a generic version.

◀ For the second straight year, Alabama and Clemson played in the championship game of the **College Football Playoffs**. This time the Tigers beat the Crimson Tide, 35-31, to win Clemson's first national title in 36 years. Quarterback Deshaun Watson was the hero, throwing for 420 yards and three touchdowns, including the game winner with one second left.

◀ **Pokémon Go**, a new location-based augmented reality game, became a sensation. Millions of players took to the streets to hunt Pokémon with their mobile devices and the app sparked renewed interest in the 20-year-old franchise.

▲ Facebook CEO **Mark Zuckerberg** and his wife, **Priscilla Chan**, donated \$3 billion to the Chan Zuckerberg Initiative, their company aimed at curing, managing and preventing all disease by 2100.

◀ **Fidel Castro**, who took over Cuba in a 1959 Communist revolution, died at age 90 in November. Castro also nearly brought the world to nuclear war in 1962 with the Cuban Missile Crisis.

➤ **LeBron James** led his hometown Cleveland Cavaliers to the 2016 NBA title in an upset win over the Golden State Warriors, who won 73 games during the regular season.

▶ NASCAR's **Jimmie Johnson** won his seventh Sprint Cup championship during the 2015 season, tying him with Richard Petty and Dale Earnhardt for the most all-time wins.

◀ Audiences flocked to theaters around the December holidays to see "**Rogue One: A Star Wars Story.**"

The new stand-alone film was unique, as it was the first spin-off in the Star Wars series. It told the origin story of the Death Star, and the group of rebel spies who stole the plans to destroy it.

"Rogue One" earned more than \$200 million at the box office in its first week, making it the second biggest December movie opening ever, only behind another Star Wars movie, "The Force Awakens."

▲ **The Harry Potter universe returned!** Author J.K. Rowling wrote "Harry Potter and the Cursed Child," a stage play script that was also published into a new book. ➤ New England Patriots

quarterback Tom Brady led the biggest comeback in **Super Bowl** history in Super Bowl LI, as the Patriots rallied from down 28-3 in the second half to defeat the Atlanta Falcons, 34-28, in overtime.

Brady was chosen the game's MVP after throwing for 466 yards, another Super Bowl record, and leading New England to 19 fourth-quarter points to tie the game. It was the fifth championship for Brady and coach Bill Belichick.

The heartbreaking loss for Atlanta prevented the Falcons from winning their first Super Bowl in team history.

⏏ Fake news stories appeared on Facebook, and there was debate as to whether it affected the 2016 presidential election. Facebook CEO Mark Zuckerberg said only 1 percent of the news on Facebook's news feed was fake and said it could not have swayed voters.

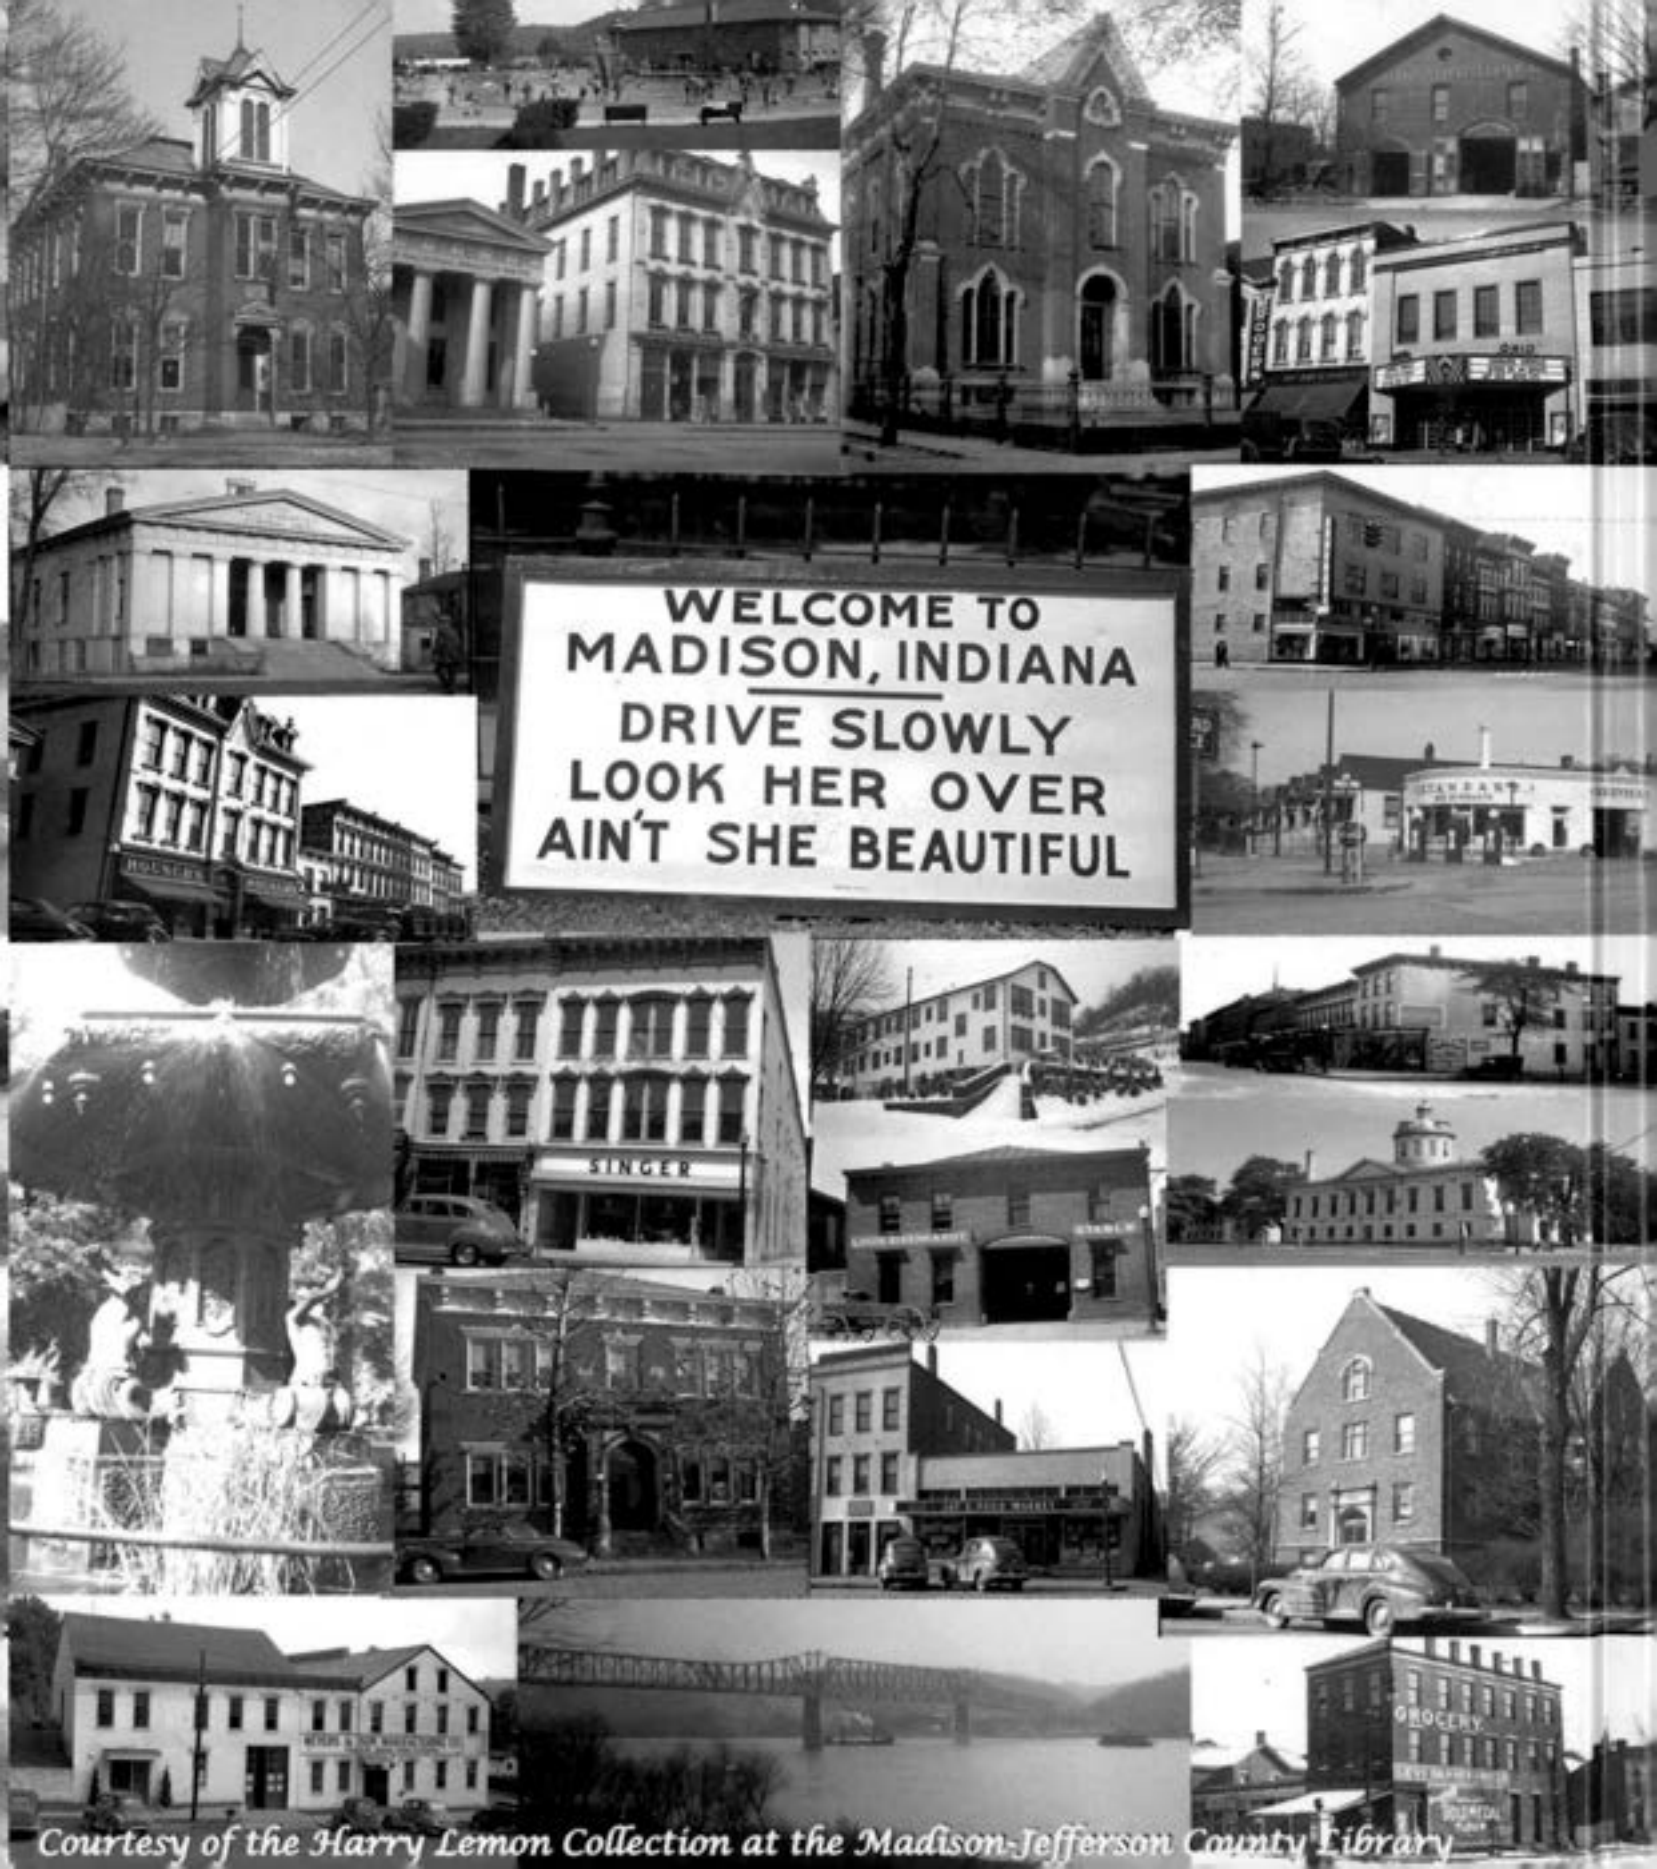

⏏ "Hamilton," the hip-hop Broadway musical about our nation's first treasury secretary, Alexander Hamilton, continued its success without its author, Lin-Manuel Miranda, in the lead role.
