Hey, I know you!

- Caitlin Kelly

A new year brings new beginnings and a whole array of new possibilities. Coming into the school year, students were bubbling with excitement. Between accomplishments in academics, sports, school clubs

Having down time during an art field trip, Eamon Fry, David Grote and Sam Boone pose for the camera. This seemed to be a signature move by many of the male students.

and the start of the new addition of classrooms, students barely had time to relax. There were just so many new things to take part in.

When asked what the most memorable part of this year was, Sarah Torline said, "It was by far the Highlighter Dance. It was the first

new/futuristic dance at Shawe and everyone had a blast. I'll remember that dance for years."

As the year came to a close, students were filled with a new kind of excitement. Seniors said good-bye to their life as high schoolers, juniors looked forward to being seniors, eighth graders were ecstatic about being freshmen and the sixth graders from Pope John were overflowing with nerves and anticipation about moving to Shawe to be seventh graders. Students were ready for another year of memorable moments.

Shawe Memorial Junior-Senior High School
201 West State Street
Madison, Indiana 47250
Principal Jerry Bomholt
Enrollment 167 Volume 55

Everybody Knows Your Name

The year started out with a boom! The new students, foreign exchange students and new teachers made everyone interested in what the school year would bring. **December Miles** expressed her thoughts about the new year, "I was so excited about being in a new school. Shawe is so different from other schools. I love the family environment, and I couldn't wait to see what the school year had to offer."

Between sports, school, extracurricular activities and many other things, the students were busy all year long. Senior **Campbell Higbie** tells about his schedule during the year. "From the beginning of the school year until now I have been busy with senior work. It became difficult because I play basketball and track, so balancing school and extracurricular activities was definitely a challenge."

Throughout the year students expressed their love of being able to participate in so many Shawe events. **Kaylee Mingione** said this, "I love being able to play more than one sport. Being a cheerleader and a basketball player allowed me to get involved."

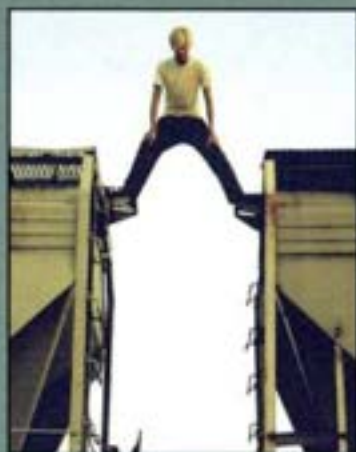

The halls were filled with laughter as new friendships formed and everyone began to know our names. - *Taylor Miles*

On senior retreat, Brogan Drumm, Kimi Schafer and Hana Roberts enjoy their free time by exploring the woods. These three loved playing games and having fun. photo by Tavi Valkovci

“Shawe is the place I call home.”

Where Everybody Knows Your Name

Dynamite Comes in Small Packages!

"There is nothing better than having the opportunity to attend a small school where everybody knows your name and can pick you out of a crowd," stated senior, **Kimi Schafer**, when asked her opinion about the different opportunities at Shawe.

Having only 163 students, knowing everyone has many advantages, such as making plenty of friends and knowing just about everyone you go to school with.

When asked about the advantages of going to a small school **Michael Kring** stated, "I love the fact that I have two close friends I can always count on. When basketball teams underestimate us because we are so small even though we won the sectional title last year!"

The student to teacher ratio is 7.5 to 1. It's a great feeling to know that if a student needs help, the teacher will make time for them.

Jennifer Morris commented, "I love the teaching staff here at Shawe, they are all so friendly, and whenever I need help with homework or don't understand something in class they are always there to help."

Story by Kaylee Mingione

Pank pong, a ping pong game where one attempts to bounce a ping pong ball off of anything that's considered in play such as windows or even walls, created by the intelligent minds of the boys at Shawe. **Ryan Cox** serves the ping pong ball in attempt to bounce it off of some sort of furniture in order to gain points.

Gathering around a picnic table outside of Eric and David Grote's house the sophomore and freshman girls, from left Laura Hesse, Megan Goebel, JaLynn Copeland, Lauren Goebel, Allison Mruzek, Abby Valkovci, Hannah Tilley, and Kahyn Robison, all enjoy their breezy afternoon blowing bubbles together. *photo by Barb Daugherty*

Laughing hard and flexing big, Trent Scroggins and Chase Heaton both find a way to put a smile on anyone's face when they are having a bad day. *photo by Deby Calderazzo*

While on Senior Retreat one of the many things that the seniors participate in are skits. These are just one fun thing that takes place. Kimi Schafer, Dawson Fair, and Brogan Drumm all prepare themselves for their skit. *photo by Kaylee Mingione*

Showing how much fun he knows how to have, William Craig gets down on the dance floor during the Christmas Dance. One could rarely find William sitting. *photo by Deby Calderazzo*

The entire school comes together to help cheer on the Boys Varsity basketball team as their bus leaves the school, Regional bound. The school pride and spirit could almost be felt in the air as students and teachers alike waved goodbye to the team. *photo by Eris Poyner*

As the bus carrying the Boys Varsity basketball team heads off to regionals, the school bids them farewell. **Brad Koehler, Grayson Rhoten and Patrick Bear** cheer on the team. *photo by Trent Scroggins*

FRANKLIN BELT, 11TH

"School spirit is important to me because it shows my love and support for this school."

KYLEE ASHBURY, 7TH

"School spirit is great! It keeps people active and involved with the school and at games."

TAYLOR DAVIS, 11TH

"When you have school spirit, there's greater support, and everyone needs support!"

Topper Pride

What the school may lack in size, was made up for in school spirit. When attending a game, one would never be able to tell that less than two hundred students attended the school and only a handful of them were making enough noise to fill the entire gymnasium. Even if the student section of the gym wasn't filled up, the ones that did attend the games showed up decked out in green and gold and ready to lose their voice from cheering so much.

Game attendance aside, the student body as a whole made sure to show their support in many other ways, like dressing up according to different theme days during spirit weeks to celebrate success in sectionals and regionals. Cheerleaders and friends also always made sure to decorate the hallways and the lockers of players to get everyone pumped up, excited and motivated. "My favorite way to show school spirit is to go to the games and scream my lungs out for the team. Basketball games are my favorite part of the year!" said **Elizabeth Stucker**, a regular game attendee. The students that made it out to games always made sure to support the teams to the end, making their screams and cheers heard regardless of whether or not the night ended with a victory.

"School spirit is really important to me, because it makes me feel proud to be a part of my school," commented **Collin Hambrick**. Students always seemed to enjoy the opportunity to support their friends and classmates that played on sports teams, and everyone seemingly had a great time dressing up and down to show off their school spirit. -*Abby Valkovci*

Right: Foreign exchange students Debbie Calderazzo and Hanna Backlund wear their pjs to school on Pajama Day. Students enjoyed the chance to dress cozy and casual on this popular day during spirit week. *photo by Erin Poyner*

A March to Save Babies

Every year, hundreds of thousands of people congregate in Washington, D.C. to protest the abortion of unborn babies. People from all walks of life put aside their differences to come together to fight for the cause. The youth of Prince of Peace Parish had the opportunity to participate in this extraordinary march in January.

The trip was offered to any student in grades ten through twelve, that were either a part of the Prince of Peace school system or Parish. This year, the trip consisted of twenty-four students and three adult chaperones.

At five o'clock in the morning on January 22nd, the Pro-Life participants embarked on their journey to Washington. After riding on a charter bus for more than ten hours, they arrived at Georgetown Preparatory School where they bunked for the weekend. The next day students went off on their own to tour parts of Washington. Some groups went to see the museums, others took tours of the monuments and at the end of the day, all of the groups from Madison came together to go ice skating. Later that evening, the kids from the Archdiocese of Indianapolis got together with all of the other youth involved in the march at a concert by Matt Maher. For some, it was a truly inspirational event. "Without a doubt, the trip strengthened my faith. The masses that we attended were so moving. To see all those young people freely choosing God was incredibly powerful," **Brogan Drumm** commented.

On Monday, January 24th, students got bundled up in their warmest clothes and made their way to the Capitol building to start the march. Four hundred thousand adults, teenagers, kids and even toddlers, were all crowded together fighting for the same cause. **William Craig** said, "This was my second year attending the march. I participate in it because I love the feeling of making a difference and fighting for the life of babies. This is an experience that all Pro-Life supporters should be involved in at least once." -*Caitlin Kelly*

Far left: Taylor Miles braids Katie McGee's hair before setting off on their first day of activities. Taylor was known for braiding everyone's hair when it came time for sporting events or situations like this, when the luxuries of straighteners and mirrors were non-existent. *photo by Caitlin Kelly*

MATT ARMSTRONG, 12TH

"I love getting to hang out with my friends everyday, especially Kaylee who I pick on all the time."

KAELIE DAVIS, 11TH

"What I love most about my friends is I know they are always there for me when I need them, and we always have a blast."

DAVID GROTE, 10TH

"I love the fact that my friends like Nazi zombies as much as I do. It's fantastic and they are always there for me."

Friendship Always Finds a Way

The definition of friendship is someone who is there to count on. While spending high school years at Shawe, there isn't a place where one can't find a best friend to attach to. Friendships made at Shawe normally last a lifetime. It begins with a bond that cannot be broken, even after separation by college. When it comes down to it, friendships are really important in just about everyone's lives.

When asked what makes his friends so important **Nick Craig** commented, "Friends are so important because they put up with all that goes on in my life."

Many students at Shawe have friends all over the place, after moving from different schools or even moving from Shawe and then coming back after a year or two. **Jake Sanders**, started his high school career at Shawe, moved junior year, then joined the Shawe family again during his senior year. **Jake** stated, "My friends keep me going. They are the reason why I'm able to wake up in the mornings and come to school. They are always there for me, especially **Michael** and **Nico**. I still have friends in South Carolina from last year, but it's always good to just come home and be able to hang out with these two. It feels like I never even left. We just pick up where we left off before I moved, and playing basketball with these two my senior year is even more incredible!"

Students at Shawe become way more than just best friends, friends or even acquaintances; they become family. Whether that means going on vacation with your best friend, staying at their house all the time or even just being there to talk to whenever they need you, there is never a time where one can't find some students without their best friend right by their side. As the quote says, a best friend is someone who will be there for you when the rest of the world walks out. There is not a day that went by that students didn't fall back on someone they knew they could always count on. - *Kaylee Mingione*

Far right: Dancing to the Cupid Shuffle
Kaylee Mingione, **Kaelie Davis** and **Miss Jenny Nigg** show everyone how it's done. The student and teacher friendships are always nice to have while you're in high school. It gives students the knowledge that if they need to talk to an adult they will be there. *photo by Erin Poyner*

Right: Always together, whether it be in Spain or the United States, best friends, **Hana Roberts** and **Audrey Stillwell** can always fall back on each other, knowing their friendship will last forever! *photo by Abbey Stillwell*

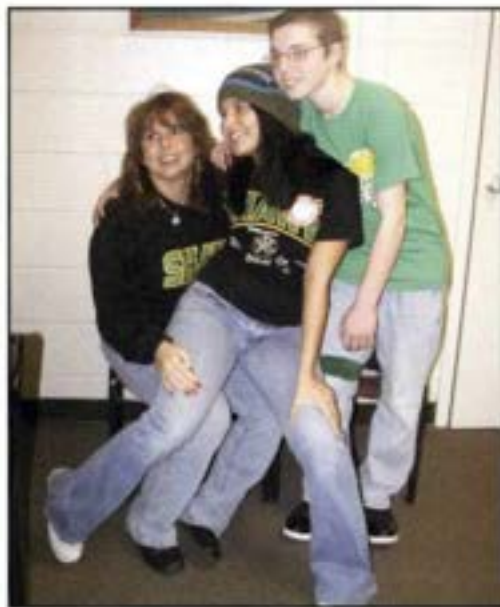

We're All in This Together

The word family means something different to each and every person. For some it means a big support system that is always there to catch you when you fall, and for others it is a small circle of best friends that you can trust with all your heart. "I have a huge family, and I love it! If all else fails, I know I will always have people there for me," **Spencer Torline** said.

Shawe was a family all on its own. It was a place where the students and faculty all laughed together, mourned together, celebrated together, learned together and grew together. Students and faculty alike didn't have to go far to find someone to lean on in a time of need. We were all here for each other, whether it was a time of rejoicing or a time of tears. Not very many other schools had that luxury. It was one of the many things that made Shawe unique.

Inside of Shawe's big family atmosphere, there was also a large number of blood-related families. Students didn't have to go far to find members of these family circles. One of the biggest groups of relatives was the **Kelly/Drumm/Boone** family. They topped out at a whopping seven members throughout the junior high, high school, and faculty. The **Grote** family was close behind with five, and the **Mingione/Ball** family with four. Besides having family circles that included siblings and cousins, there was an abundance of sibling relationships. An example was **Jacob** and **Sarah Sanders**. Sarah commented, "Having **Jacob** at the same school is really awesome because it gives me a chance to see and talk to him everyday." The pairs of siblings at Shawe thoroughly enjoyed getting the chance to see each other everyday, and to know that there was someone there to talk to if they had a problem.

As the year came to a close, the Shawe family had a hard time letting go of those that left to continue their journey at college, especially the younger siblings that had to say good-bye to their older brother or sister. These students didn't feel alone for long though, because the student body made sure to help them along their way. -*Caitlin Kelly*

Boo! Andy Reuss jumps out and scares Brogan Drumm as she walks inside after class. Andy and Brogan could be known as the class clown couple, they were always joking and laughing. They never failed to make people smile. photo by Taylor Miles

AUDREY STILLWELL, 12TH

"I like everything about him. He is so cute and sweet. I just want to squeeze him!"

JOHN COCKBURN, 12TH

"The best thing about my girlfriend is that she is just as goofy as I am!"

SARAH TORLINE, 12TH

"He always listens to me no matter what. If I had a long stressful day he's there for me."

Somebody to Love

In high school balancing relationships, school work and sports may have been difficult for some, but others just saw it as an amazing part of their life. With some one by your side some people felt invincible. Couples bonded with one another during passing periods or even at lunch. Another popular scene for couples was out by their cars after school. Also, seeing couples in the hallway was not unusual. Junior **Taylor Davis** says this about walking to class with her boyfriend **Luke Higgins**, "He is always joking and has something funny to say. He is like a reminder that I have a reason to smile, so no matter what I can count on having a good day." School relationships flourished throughout the year.

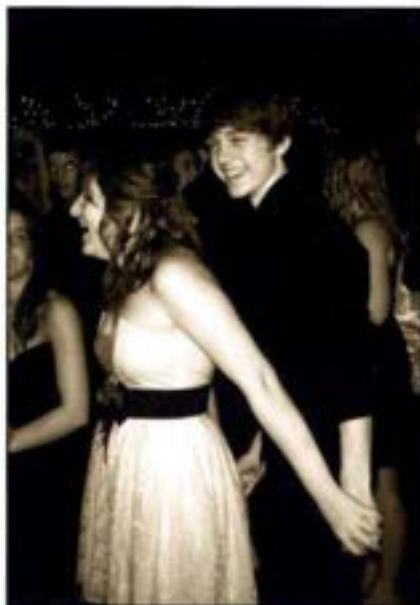

Most of the older students preferred dating someone outside of school, because most of them had been attending school together since kindergarten dating someone from a different school was new and fun. **Kaylee Mingione** commented on this, "Even though Cameron and I don't go to the same school it's alright, because when we do get to see each other it means more to us and we appreciate each other more." Students often found it easier to date someone outside of school, because they could spend the school days with their friends and classmates.

Throughout the year couples were laughing and joking with one another and sharing their happiness with others. Their happiness often caught on to others making the hallways filled with laughter and fun. Love was in the air through the whole year. Relationships began and ended, but no matter what many students will never forget the love they shared with someone else during high school.

Volunteering Taken up a Notch

Although participation in service hours was a required activity for every student at Shawe, several students took this task to another level. The record of the most service hours is over four hundred hours in one year. This record was logged by brothers **Andy** and **Alex Ruess** and **Joe Nchia** in the 2009-2010 school year. Many students have followed shortly behind this record. Sophomore, **Julia Wise** stated, "Participating in service hours has given me different ideas of ways that I could help others. I would have never come up with all of these fun places to volunteer on my own."

Students were required to volunteer for a total of 20 hours in the categories of community, family and friends, and school and church. Many students have come up with fun ways to volunteer in these specific areas. Junior, **Doug Totten** commented, "I enjoy all types of service. My favorites, however are Community Vacation Bible School and the CROP Hunger Walk that I have had the pleasure of coordinating." Some of the fun activities that students participated in this year included Vacation Bible School, the school festival, helping out at mass, planting flowers on Main Street and even helping teachers after school.

A huge service hours opportunity that occurred annually every summer was Vacation Bible School. This is a week long day camp in which junior high and high school students, along with adults from the community, come out and volunteer to teach the children about Jesus and the Bible. The children at the camp ranged from preschool to sixth grade students and came from all around the city. Not only was this a chance for Shawe students to earn service hours, but also a chance to spread the knowledge of Jesus along to the children of the community.

Service hours were a great way to give back to the community and not only help themselves, but also help others at the same time. *-Brittney Snodgrass*

Far left: **Billy Cole** pushes a television into the gym so that the PE class could have a yoga lesson. Billy was very nice about helping teachers with whatever they needed. *photo by Brittney Snodgrass*

Left: **Susan Goley** and **Brogan Drumm** work to cover a picnic table with a plastic tablecloth. This was a special day of school that the senior class spent helping set up for the annual community festival held on campus. *photo by Kimi Schafer*

Andy Ruess, Joe Nicha and Alex Ruess work together to quickly load the Goodwill truck with clothing donations from the school. This activity was previously undertaken by the Student Council, but when the boys found out that it would not be done this year they decided to take charge. They organized this activity for a Boy Scout service project which counted as service hours for school also. *photo by Kaylee Mingione*

Nick McCubbin volunteers by working at the concession stand during a basketball game. The concession stand offered a wide variety of snacks during all the home games. *photo by Brittney Snodgrass*

MEGAN GOEBEL, 9TH

"My best memory from service hours was working at the festival with my friends and family. It was nice to see some people that I had not seen in a while."

LAURA HESSE, 10TH

"The best memory from service hours was when JaLynn Copeland and I volunteered at a Haunted House. We enjoyed making people scream and JaLynn even made a little kid cry."

JESSE FITTON, 7TH

"My best memory from service hours this year was working at the school bazaar. It was really fun, and I had a good time with my friends."

Smiling big for his picture Bailey and Addie Davis' puppy, Spot, shows his fun loving spirit by looking up at the camera, just waiting to pose for his picture. photo by Addie Davis

Relaxing in senior Kaylee Mingione's lap, her puppy Jersey looks around the kitchen of her new home. She was joined by another dog that has been in the family for awhile, Spooky. photo by Kaylee Mingione

SAM SCHAFER, 12TH

"My dream pet would obviously be a dragon. I could ride it and fly it anywhere, anytime, and it's firebreathing power would help with my enemies."

HANNA BACKLUND, 11TH

"My dream pet would be a frog because my mother loves them, and I got that gene too. They are adorable and if you kiss one he may turn into a prince!"

KALYN ROBISON, 10TH

"My dream pet would be any animal at the Zoo or a dog, because I just want a dog."

Finding Love From Furry Friends

From traditional pets such as cats and dogs, to hamsters or even fair fish, there is always a perfect pet for a person to find and love like it is a member of the family. One could always find students at Shawe talking about their furry little friends at home, and how long they have had all their pets around their house. Many students have more than one animal in their household but do prefer one pet over the other one.

When asked who and what their favorite pet was and why, **Addie Davis** replied, "My black poodle Angelia because poodles aren't an average dog, and I have the opportunity to have two!"

Pets were not only fun creatures to have around at home to play with, but they also provided students with the responsibility of having to care for their animals at home by cleaning up after them, feeding them or taking them on a walk everyday. Animals played a big part in quite a lot of people's lives, they were there for one to fall back on when they needed someone to listen to them and to find one companion they needed in life.

Senior, **Susan Goley**, who has many animals, stated, "My favorite pet was my puppy Gus. We got him when he was only a few months old, and he was just the cutest little lab ever!"

The diverse interest students have with all the different animals around the world make for interesting conversations. Not only were pets good to have around, but once they had been around for long enough they knew when one had a bad day and did whatever was in their power to make one smile by entertaining them for hours. Not only did they do that pets also were the ones who provided students a welcome home from studying as well as homework. Pets really were a big thing in many student's lives at Shawe. - *Kaylee Mingione*

All Around The World

Students at Shawe experienced a burst of culture this year with three new exchange students. **Akim Trueller**, **Hanna Backlund**, and **Deborah Calderazzo**. Students, especially the juniors since all of the exchange students were in the Junior Class, were incredibly excited to have students from different countries come to Shawe. It was a new experience for students at Shawe, and the exchange students alike, because everyone learned something different.

Akim Trueller, from Germany, lived with **David** and **Eric Grote**. **Akim** jumped right into the social life and made quick friends by playing soccer at the beginning of the year. "Playing soccer was such a privilege and all of the friends I made on the team are still my friends today. The sport made it easier to adjust to American life," said **Akim**. In Germany, **Akim** lives with just his mom, so coming to live with the **Grote's** was a big change for him. "Living with **Eric** and **David** is such an experience. **Mrs. Grote** treats me just like she treats those two. It makes me feel like I really belong to the family."

Hanna Backlund came from Sweden, and lives with **Katelyn Moore's** family. Her and her host family share some of the same interests, making it easy for **Hanna** adjust to life here in America. When asked what her favorite part about being here in America was, **Hanna** said, "What I like most about being an exchange student here in America is that I have the opportunity to meet a new culture, meet awesome people, and to improve my language skills." Not only did **Hanna** make new American friends, but she also made friends with other exchange students.

Deborah was also an exchange student at Shawe. She lives with **Sarah Torline** and came from Belgium. **Hanna** and **Deborah** became fast friends. The two traveled to Chicago together during Fall Break. Overall, the exchange students have experienced quite a bit at Shawe. The former Shawe students and exchange students alike had a year full of new and exciting experiences. There will certainly be many memories to take back to their homes. -*Kimi Schafer*

Far Left: **Deborah Calderazzo** cheers on the boys at a home basketball game. Cheering was something new for **Deborah**, since there isn't basketball in Belgium. Learning the rules of the game was challenging at moments, but it was always a joy to watch the fans. *photo by Hanna Backlund*

DEBORAH CALDERAZZO, 11TH

"Shaee has given me the opportunity to experience an exciting little community."

AKIM TRUELLER, 11TH

"Playing soccer for Shaee and going to other sporting events has been one of the best parts of Shaee."

HANNA BACKLUND, 11TH

"I don't want to wake up from this American dream, I love it here!"

Friends, Kayla Cieslinski and Deborah Calderazzo link arms as they dance to Cotton-Eyed Joe. Andy Reuss quickly comes to join in on the fun. photo by Cheraign Drumm

Christine Stormer chaperoned at the Christmas Dance this year. She was pleased that she got the opportunity to express her feelings to Eric Grote and other students about particular dancing styles with her homemade sign. photo by Hanna Backlund

NICO MINGIONE, 12TH

"Dancing with my friends was the best part of Christmas Dance. The senior boys' picture was also great."

ASHLEY JOSEPHSON, 11TH

"I loved doing group dances like the 'Cha-Cha Slide' and 'Cupid's Shuffle' because everyone seemed to be together and have a good time."

BROGAN DRUMM, 12TH

"This years Christmas Dance was so much fun! Dancing with Kimi, Caitlin, and Liz was the best part."

An Evening of Memories

Each year, students looked forward to the Christmas Dance. The Senior Class put together the dance that happened at the beginning of Christmas Break. Spirits were already high with everyone looking towards the holiday season. The night was memorable for nearly everyone, especially two lucky students who were voted Snow Prince and Princess. **Liz Grote** and **Akim Trueller** were all smiles after being named royalty. "Winning Snow Princess was so much fun! I loved being nominated with **Taylor Grote** and **Caitlin Kelly**. **Akim** was a great prince too! It was the icing on the cake to a fantastic night with all of my friends," said **Liz**.

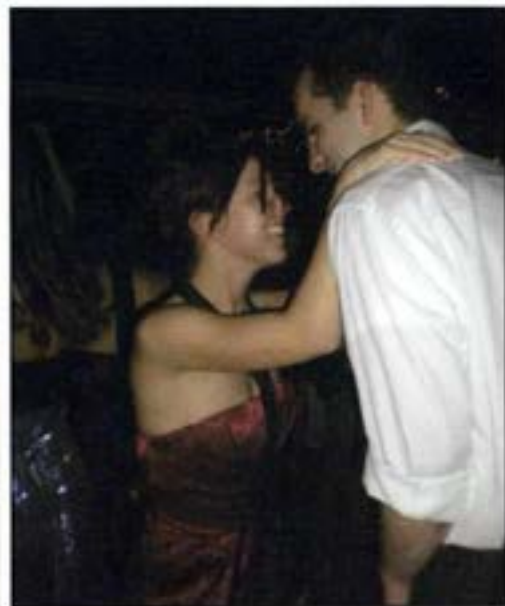

The Christmas Dance was only for high school students, so the freshmen were even more excited, because it was just the beginning of more dances to come. Some freshmen didn't know exactly what to expect from the dance, but they managed to find a highlight of the evening. "My favorite part of the dance was definitely hanging out with KT," said freshman, **Trent Scroggins**. For the seniors though, it was a bittersweet moment. Unfortunately, it was the final Christmas Dance that they will participate in. "This years dance was great! Instead of going out to eat, we ate in at my date's, **Eric Grote's**, house. Dinner and sparkling grape juice was my favorite part, and then of course dancing like Lady Gaga at the dance," commented **Hana Roberts**. Since it was their last, the seniors tried to make it their best and most memorable Christmas Dance.

The most exciting part of the dance came before the dance even began. Groups of friends got together at one house to prepare for the evening. Make-up, hair, jewelry, and shoes were added to the mix along with the dress. At the end of the evening though, it didn't matter who was wearing what; all that mattered was that everyone that came had a great time, together. The evening didn't fail to be a success and ended the semester in good spirits. Everyone went home with a grin on their face, ready for the next dance. -*Kimi Schafer*

New Year Brings New Trends

Today's society brought new trends to Shawe daily. Many said they did not follow trends; they chose to stand out instead of following what everyone else decided to do. Others said they enjoyed all the trends that celebrities came up with, or even just a special trend that their friend made up.

When asked if she followed trends, **Abby Valkovci** stated, "I don't like to follow trends. I'd much rather be an individual and do my own thing rather than follow the crowd."

From following trends, setting new trends or creating your own on trends, the seventh grade class all the way up to the senior class differed in their opinions of trends. **Ben Craig**, a junior, who would always find a new trend to show off stated, "I love setting new trends. I can always find something to wear in my closet that I know nobody else would ever think of wearing. It's like once I do wear it I always seem to see others wearing it after I do. I really enjoy shopping at Goodwill because they have cheap clothes that still manage to make me stand out."

Whether **Ben** or a celebrity set the new trend, students always managed to find a way to stand out with what they wore throughout the entire year. Between all the spirit weeks for the Sectional games or even just the dress down Fridays, students throughout the school managed to show their individuality through the clothing they wore, shoes they wore, or simply how they wore their hair. Everyone chose their own style, or possibly followed what their friends were already doing. "It's always nice to be able to express yourself here at school, in ways that aren't always possible for everyone at other Catholic Schools, on Fridays or even during dress down weeks for spirit days." expressed **Susan Goley**. - *Kaylee Mingione*

Far left: While in art class **Shelby Greene** sports her jeggings. One could always find students wearing jeggings. Even teachers such as, **Mrs. Christine Stormer**, sported the same pair as **Shelby** on certain days and encouraged girls go to **Maurices** and buy their own pair! *photo by Kaylee Mingione*

Left: Working on her journalism page, **Kaylee Mingione** wears her hair down with a headband. One could find many girls that wore this hairstyle on a daily basis. *photo by Abby Valkovci*

Sporting the same jeans Kimi Schafer, Coitlin Kelly, Koelie Davis and Liz Grote, found out during a Dress Down Friday that they all have the same jeans from American Eagle. One could find them wearing those jeans on other Fridays throughout the entire year. *photo by Kaylee Mingione*

Among the athletes at Showe, one could always find at least someone in the school wearing shorts and long black Nike socks. While working on his art project, **Franklin Belt** wears his shorts with the long black Nike socks. *photo by Kaylee Mingione*

AMELIA KOEHLER, 8TH

"My favorite trend is wearing some skinnies, Uggs and my hair up in a ponytail."

MADDIE WALLER, 7TH

"My favorite trend is wearing skinny jeans with Uggs."

TRENT SCROGGINS, 9TH

"My favorite trend is brown suit, white shoes, and a white belt."

OLIVIA GILPIN, 12TH

"I like the alone time because it gives me time to sort out my thoughts."

LAUREN GOEBEL, 10TH

"My favorite part of lunch is talking with friends I don't usually get to see during the day."

MICHAEL ELBURG, 11TH

"I really love visiting with friends and talking."

Break Time

Seen as more than just a brief period to eat and refuel, lunch time was a daily escape from the stresses and responsibilities of the classroom. Lunch time, for some, was the only time of day they got the chance to socialize with friends outside of their grade or classes. Most all students looked forward to hearing that bell ring at the end of fifth period, dismissing them to a fun time with their peers. "I love lunch time because it gives me a break from work," said **John Valkovci**, "and I get to eat and see my friends, too."

Students, especially those with difficult morning classes, seemed to enjoy a break from focusing and working hard, and lunch was the perfect opportunity to relax with friends while preparing for afternoon classes.

Of course with all this free time with friends, shenanigans were sure to ensue. Whether they ate lunch in the cafeteria or in the student lounge, students always expected a little harmless goofing around with their group of friends - or saw other students horsing around and causing mischief. Others, however, preferred to keep to themselves or their group of friends and utilize the free period to accomplish something such as finishing incomplete homework from the night before. "I can get some extra time to do some of my homework and chat with friends," noted **Michael Elburg** of the convenience lunch provided that is much like that of a study hall. Whether it's for the food, the free time, or the socializing, many would agree that lunch was the highly anticipated event amongst students.

The 50's Come Hoppin' Back

The Student Council Homecoming committee worked hard to pull off another amazing Homecoming. The theme really set the mood with Elvis rocking in the background, the students and guests alike were ready to dance and have a great time. The decorations set the the night into play with records, musical notes and colors of black, pink and white everywhere, the crowd was ready for an exciting night.

The 2011 Homecoming prince and princess candidates consisted of freshman **Taylor Grote** and **Trent Scroggins**, sophomores **John Valkovci** and **Liz Grote**, juniors **Kaelie Davis** and **Akim Trueller**. **Matt Armstrong**, **Michael Kring**, **Nico Mingione**, and **Andy Reuss** rounded out the senior boy candidates. The lovely senior girl candidates were **Olivia Daugherty**, **Hana Roberts**, **Kimi Schafer** and **Audrey Stillwell**. When asked what she thought about being a part of Homecoming senior **Audrey Stillwell** said this, "I was honored to be a part of the Homecoming court as a senior. I have never been a part of it before so it was fun and I loved the theme. Walking with my best friend was hilarious, and we both had a great time."

The 2011 Homecoming theme of the 50's made the night pleasuarble for all. A senior student council memeber commented on the planning of the lively event, "Putting together a Homecoming to please everyone was quite difficult, so many minor details had to be finished to create an enjoyable evening for everyone. The night went wonderfully and everyone had fun!" said **Olivia Gilpin**.

The night was a success. The varsity basketball team pulled off a win. The crowd added to the night with their enthusiastic cheers and involvement in the game. On top of the already exciting night the French Club put on a dance for the students, playing music to go along with the theme. This was a wonderful end to a successful night.
- Taylor Miles

JULIA WISE, 10TH

"The best part about Camp Joy was getting to talk with people in my class that I don't usually talk to and going on the zipline."

CHRIS PETERSON, 10TH

"One of the best parts about Camp Joy was getting to bond with my class."

ABBY MCINTEER, 10TH

"Truth or Dare and watching everybody do crazy stuff was definitely the best part about Camp Joy."

Climbing to New Heights

For the past four years the sophomore class had the chance to participate in a class trip to Camp Joy. It was a place where students built their relationships with each other, learned to work as a team and had fun. Students always came back with memories that would last a lifetime.

At Camp Joy, the sophomores got to partake in many challenging activities like climbing high rope courses that stood in trees over thirty feet high, jumping off the pamper pole, climbing the group wall and numerous other team building exercises. Each one challenged the students in ways they have never been challenged before. "I think the most exciting challenge to overcome was just bypassing any doubts that you had to actually be able take part in the activities. This was a challenge for others of course, but not for me because I think that fear actually fears me," commented **Joe Nchia**.

Not only did students get to do fun activities, they also got to have time to themselves to bond with their classmates. During these times, the sophomores got to play games like truth or dare only it was a different style than most people were used to. Little pieces of paper with truths or dares written on them were put into balloons and then blown up. Students had to pop them and do the task. This created many laughs and funny moments the sophomores would never forget.

Miss Jenny Nigg has been the coordinator of the trip since its beginning. By the fourth year, she had seen it all. She added, "The funniest thing is when I make the students play Truth or Dare. It's absolutely priceless to see the students picking their noses or licking each other's feet."

Despite the difficult tasks and embarrassing games, the sophomore trip was a great way to bring classes together as a whole and create long lasting memories and friendships. -*Caitlin Kelly*

A French Experience

Advanced French students left for an incredible trip this spring break. There were only a handful of juniors and seniors embarking on the journey around France, Italy, and England. It was an amazing experience for everyone that was involved. "This year went very smooth. We didn't have any problems. Everyone could keep up and nothing went wrong. The students and chaperones alike made it a great trip!" said French teacher, **Aline Schafer**.

Tour guide, **Peter Holmes**, made the visit as wonderful as it could possibly be. He took the group to see the monumental places like the Eiffel Tower, Big Ben, the British Natural History Museum and the famous statue of David by Michelangelo. While in Paris, the group also took part in the Seine River Cruise and saw the Arc de triomphe, or Arc of Triumph.

Everyone on the trip shared different highlights. **Tori Valkovci** told an exciting story about part of their stay in England, "While we were at the hotel in England, the fire alarm went off twice on two different nights. We had to be evacuated, and we didn't get to eat breakfast. It was freezing cold! They gave us these foil blankets, but it was still horribly cold. It was really cool being able to see the firemen from England."

The experience was awesome for all of the students and chaperones, the trip offered something for everyone to enjoy. "The trip was incredible. After spending years learning the language and the culture it was nice finally being able to see it and live it. Just seeing the culture, places, and people was the best part. I'm also a really picky eater, but the food was actually pretty good. Overall, it was an awesome experience, and I would love to go back sometime soon," said **Dawson Fair**.

The travel overseas was frightening at first, but once everyone became comfortable, no one wanted to go back home. Students brought memories home that were sure to last a lifetime. -*Kimi Schafer*

TORI VALKOVCI, 12TH

"My favorite part of the trip was experiencing the new culture and eating the delicious food."

TYLER CANADA, 11TH

"The best part of the trip was getting a sword from Rome."

CHLOE STORM, 11TH

"Going on the trip with my mom was awesome! I'm glad that she was able to come with me."

Dancing the Night Away

Music blasted through the speakers as students danced to the fast beat. Most had grown tired, but that didn't stop them from giving their all. Groups of best friends and couples twisted, turned and jumped to the music the whole night and rarely stopped to take a breather.

High schoolers at Shawe were used to the semi-formal dances that occurred twice a year. Spring Fling was one of the last big blasts of the school year, that every high school student could attend. For some this dance turned out to be one of the best they had ever attended. **Sam Boone** was one of them. He said, "I had so much fun at Spring Fling this year. **Taylor Grote** was one of the best dates. I had a blast just dancing around with her and my friends."

The Spring Fling was put on every year by the French Club. It was a way for them to raise money for their France trip as juniors and seniors. Club members got to choose the theme, and then decorate the Knights of Columbus to match it. This year's theme was Fire and Ice. The K of C was decked out in white and red lights and mints were scattered on the tables. When students walked in they could definitely see the theme portrayed in the decorations.

Out of the two semi-formal dances and the few dances held in the gymnasium, the Spring Fling ususally proved to be the favorite. It was during a time when the weather was starting to get warmer and the end of the school year was getting closer and closer, which was exciting but also created a lot of stress. Spring Fling was an escape from all of it. "All of the other dances I get to attend are fun, but there is just something about Spring Fling that tops them all, especially this year," **Madison Drumm** commented.

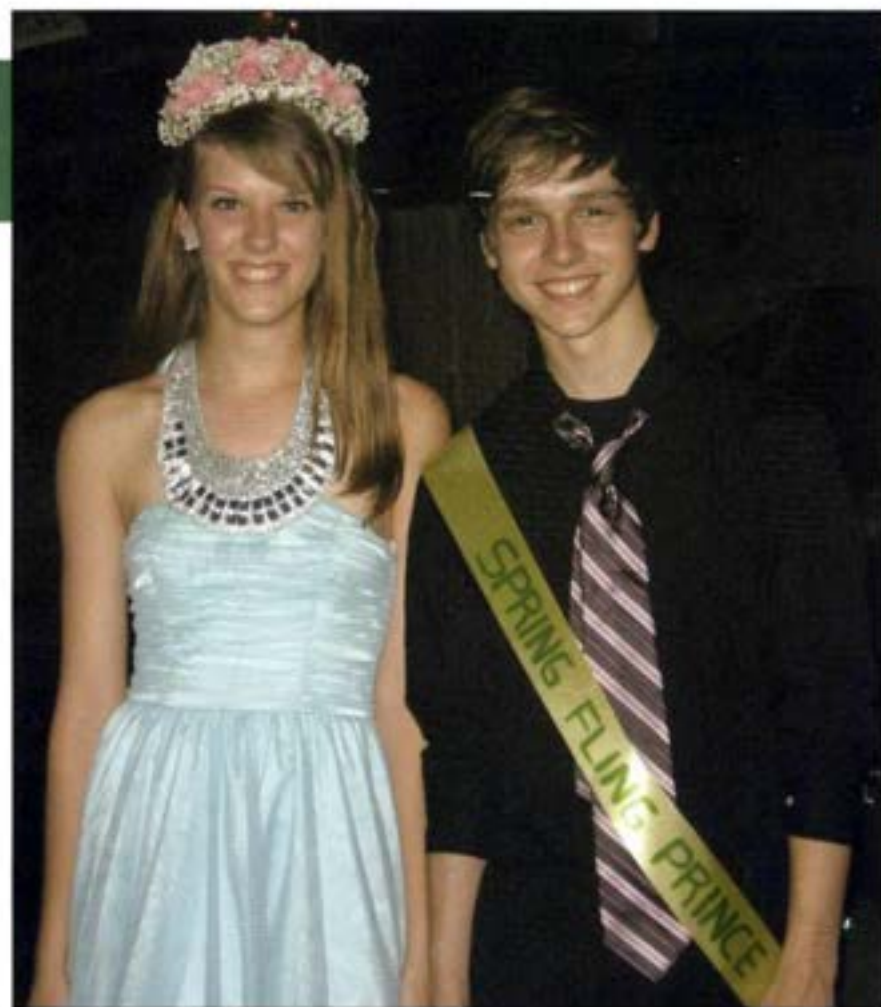

Spring Fling was a dance that students wished would never end. Memories were made as the night turned into one that would never be forgotten. -Caitlin Kelly

IAN BANTA, 8TH

"My favorite part of the trip was visiting Arlington Cemetery."

CRYSTAL RIOS, 8TH

"My favorite part of Washington D.C. was seeing the White House!"

BAILEE KOEHLER, 8TH

"I loved going to the Hard Rock Cafe. It was a lot of fun, because I had never been there before."

Roaming Around D.C.

Traveling to the nation's capital was a once in a life time experience for the eighth grade class. The students went on an exhilarating adventure to Washington D.C. For some, flying to the capital was a new and exciting experience. "I have never been in an airplane before, and I loved every minute of it," exclaimed **Taylor Kelly**.

These students grew closer to their classmates through out the entire trip. **Stephanie Snodgrass** said this about her class, "I really enjoyed going to Washington D.C. with my class. I got to know them better and my friendships grew!"

Each day brought a new adventure for these eighth grade students. Not only did they tour our nations capital, but they also learned more about the history of the United States. **Collin Hambrick** told us this, "I learned so much while I was in D.C. My favorite museum was the National Smithsonian Air and Space Museum. I loved learning more about the moon and the planets."

These twenty-eight students visited the life changing Arlington Cemetery and saw the graves of the victims. While in D.C., they also went to the National Shrine of the Immaculate Conception, the Holocaust Museum, as well as other educational sights. The different monuments were also on the list of things to see while in D.C.

Touring Washington D.C. became the highlight of the year for the eighth grade class. These students truly appreciated the opportunity to visit the capital. Their lively attitudes when they returned to school really proved it.

Going Above and Beyond

At Shawe, students were asked to go above and beyond what was normally set out for them. Students have never had the problem of going the distance and accomplishing goals that may have seemed unreachable. The 2011 school year was a year of excellence. Students not only excelled in the classroom but many also did extremely well in activities outside of the curriculum.

For many years **Julia Wise** had been playing the violin. Students got to hear her magical tunes at talent shows and special events. Although she had participated in competitions many times before, this year seemed to have been the year she went the farthest. "I've always loved playing the violin and this year I accomplished many of the goals I had set for myself. It felt incredible," added **Julia**.

Every year, junior high students got the opportunity to participate in a school geography bee. The winner advances to a state level and then to a national level. Winning against their classmates is an accomplishment all in itself, but **Ian Banta** shocked the whole student body and staff by making it to the national level. He commented, "It was a little bit odd, because I've never studied geography."

An area that students also seemed to have achieved greatness in was art. **Mrs. Carole Williams** entered all of her students' art into Tri Kappa's Ninth Annual Children's Art Show and Hanover College Jury Exhibition. In the first competition Shawe pulled out a winner with **Taylor Cutshall** getting first place in print making. In the second competition, three students were accepted and two placed. **Kimi Schafer** received first place in photography, and **Hanna Bauckland** received second place in two-dimensional art.

The dedication of students at Shawe to go above and beyond really showed throughout the entire year. -Caitlin Kelly

FRANKLIN BELT, 11TH

"The most rewarding award I received was the Hoffman Scholarship, because usually two people get this scholarship but this year I was the only one."

LAURA HESSE, 10TH

"My favorite award was the one I received for having a perfect score on the Biology ECA, because Mrs. Stormer had a snazzy plaque made for me."

DOUG TOTTON, 11TH

"Getting best delegation for Model UN was the most rewarding. Andy and I kind of dominated."

Reggie Perry and Borgan Drumm were crowned the 2011 king and queen. Nicholas McCubbin and Ashley Josephsen were named prince and princess. *photo by Bonnie Wentworth*

Getting his groove on, junior, Ian Watkins dances the night away with his date. Not only did Ian take someone from a different school, this seemed to be a trend for a lot of people who attend prom. *photo by Bonnie Wentworth*

TORI VALKOVCI, 12TH

"The things I enjoyed most about prom was having one last blast with my friends, senior year and being on court."

TYLER CANADA, 11TH

"The thing I enjoyed most about prom was all the dancing."

ZACH STOCKDALE, 12TH

"I enjoyed hanging out with everybody while I was there the most."

Here's to the Nights We Felt Alive

Juniors, seniors and a few sophomores at Shawe looked forward to one thing at the end of the year, prom. All year long the juniors worked very hard to plan, raise money and make sure everything fell into place for prom.

"Planning prom isn't an easy task like everyone would think, the hardest part was probably making everything come together. With so many people on the prom committee it was tough getting everyone's thoughts and ideas together so everyone would agree on something. Then not knowing if everything was going to work was pretty scary as well," stated Junior Class President, **Caitlin Kelly**.

All the hard work prom committee did throughout the year ended up paying off, especially once everything was put together and the big night was here. After looking forward to their senior prom all four years of high school, the seniors were nothing less than blown away with how everything ended up coming together in the end. The senior class was super proud of all the hard work and dedication the prom committee put into this night to make it memorable for every senior that attended. For many students this was their first prom so they didn't know what exactly to expect.

Sophomore, **Liz Grote**, who attended prom for the first time this year stated, "I'd always heard prom was amazing, but when I got there everything blew me away. The juniors did such a good job, and I was thrilled to be able to go to my first prom on my date's, **Michael Kring's**, last prom. It was spectacular."

Prom did not seem to let anyone down, the upperclassmen had waited all year to attend the last dance of the year and, for seniors, their last dance at Shawe.

"I thought prom was fantastic this year, it ended up being a blast, but even better then that because it was the last prom and dance that I'll ever attend at Shawe," commented **Nico Mingione**
 - *Kaylee Mingione*

Game On

The race for the Shawe Games title was on. Each class came pumped up and ready to win, even the teachers had a new strategy. Shawe Games became one of the most competitive parts of the year, with each class striving to be named the winners, every student did their best.

Most students played the games that they knew they maintained skill in. In order to place first skill was key, but others wanted to try new games, "I loved playing volleyball, it was a great stress relief. I had never gotten to play it before, but I'm glad I had the chance this year," says Senior **Andy Reuss**. **Sarah Torline** tells about the game she is especially talented in, "Spoons was definitely my favorite game. I have experience playing this game, because I really get into it. I make sure that in each turn I have a spoon."

Students enjoyed Shawe Games day, because it gave them a break from their class work. The entire day was devoted to playing games and having fun, while competing against rival classes and the teachers. **Taylor Kelly** expressed his thoughts, "I especially liked not going to class. It was one of the best parts of the whole day."

The competition became very close between the Seniors and the Sophomores, many believed that the Sophomores had a chance. **Noah Miller** said, "Each year our class has gotten so close to winning Shawe Games, even this year we were close." The teachers were even performing well in the competition. Their new strategy paid off when they placed fourth. Ultimately, the Seniors pulled through and won Shawe games. The class dominated in many events, thus earning them the title of Shawe Games winners.

Participating in Shawe Games Day brought the classes closer together. The students formed bonds with each other making the day a monumental success. *Taylor Miles*

*Far Left: Trying to win, senior **Tori Valkovi** and freshmen **Billy Cole** think of strategic ways of throwing the cornhole bags. This game became very serious for **Tori**, because it was her last year and cornhole was her favorite game. photo by *Erin Poyner**

AUDREY STILLWELL, 12TH

"Graduation was bittersweet. I'm glad that it's finally over, but I'm going to miss everyone so much"

JOHN COCKBURN, 12TH

"Graduation was sweet! All of the seniors worked hard to get here. It's all finally paid off."

SARAH TORLINE, 12TH

"It was such a relief to finally have everything complete! Graduation was just an awesome day!"

Smile & Wave

The Class of 2011 had a very successful year. The graduation ceremony held on June 5 was a perfect representation of their accomplishments. The class of twenty-seven had twenty-one receiving Academic Honors diplomas and six with Core 40 Diplomas. Principle **Jerry Bomholt** welcomed the seniors and guests. Salutatorian, **Susan Goley** presented her speech. She recalled memories from childhood and all the way through high school. Valedictorian, **Andy Reuss** took a bold step with his speech by stepping down from the stage and telling a story to his fellow classmates. Next, commencement speaker, **John Kalb** gave a speech that was the perfect combination of humor and seriousness. Graduates and guests alike found all of the speeches of the night inspiring and motivating.

All of the seniors spent much of their time during the school year filling out scholarships. Their hard work paid off on Senior Scholarship Program and at graduation. Scholarships awarded at graduation came to an incredible amount of \$37,000 which could be combined with the \$48,000 awarded at the Senior Scholarship Program and \$390,000 from colleges and universities. The Class of 2011 total amount in scholarships was an astonishing \$475,000.

The scholarships awarded at graduation were: Father Hilary G. Meny Scholarship/Community Foundation of Madison & Jefferson County- **Jordan Robison**, Louis A. Earnst Family Scholarships- **Aaron Copeland, Brogan Drumm, Susan Goley, Taylor Miles, and Andy Reuss**, Lucille Pratt Memorial Scholarship- **Audrey Stillwell**, Myrna & Leslie Datillo Memorial Scholarship- **Tori Valkovci**, Chuck Hall Family Memorial Scholarship- **Nico Mingione**, John & Mary Diekes Memorial Scholarship- **Susan Goley**, Karen Diekes Ihle Memorial Scholarship- **Andy Reuss**, Yunker Foundation Scholarships- **Olivia Daugherty, Brogan Drumm, Michael Kring, Sarah Torline, Susan Goley, Andy Reuss, Hana Roberts, and Tori Valkovci**, Mount Joy Family Memorial Scholarships- **Olivia Gilpin, Taylor Miles, Jennifer Morris, Audrey Stillwell, and Sarah Torline.** -*Kimi Schafer*

Where Everybody Finds A Friend

Classes That Shine

This year, the Shawe family welcomed over twenty new students. It was a huge jump from previous years where only a few new students were added to the mix. "Being a new student was amazing! Everyone already knew me because of my sister **Taylor Miles** and everyone was so nice! It didn't even take a whole week to get adjusted and feel at home," commented **December Miles**, who was a new student in the Sophomore Class.

Every class at Shawe had something different to bring to the table. For some it was their amazing athletic abilities and for others it was their humor. Regardless, each class was unique and diverse.

"At my school, being able to learn more is great, but the best part is getting to expand my knowledge with people I know, and not complete strangers," said **Megan Whitham**. The feeling of family was one of the most known aspects of Shawe. Students could walk down the halls and know each and every one of the people they saw. It was like one huge support system that one could count on in a time of need. It was a place where everybody could find a friend.

Story by Caitlin Kelly
Photo by Mary Kay McCubbin

Waiting to pose for their picture, **Kimi Schafer** looks at **Jordan Robison** with admiration as he tells her a story. This was just the beginning of a fun filled night for both of the friends.

At their surprise birthday party in August, Jordan Chandler, Akim Trueller, and David Grote share a laugh as they open their presents. Most turned out to be very comical. *photo by Barb Daugherty*

During some down time in Spanish class, Janey Seaver, Madison Drumm, Taylor Grote, and Abby McInteer decided to have some fun and construct a dogpile on Connor Boone. The five of them were seen doing silly things like this on a regular basis. *photo by Hanna Backlund*

While the weather was still warm, Abby Valkovci blows bubbles with her friends. Giggles erupted every so often when one of them would get an unusually large bubble. *photo by Barb Daugherty*

Having down time in journalism rarely happened for the staff, but when it did occur, staff members Caitlin Kelly and Kaylee Mingione took advantage of it. It usually produced goofy pictures like this one and much laughter. *photo by Kimi Schafer*

Twelfth Grade

The Final Countdown

High School was an exciting seniors. There are so many made it spectacular, such as: Archbishop Mass, Senior Exchange, and making final college. "Getting into college is senior year because it took a lot year, especially since I have to senior, **Nico Mingione**. The came to showing school spirit involved as well. "Going to all really fun. Being a senior, I feel underclassmen and be a role model by supporting our players, on and off the court," commented **Audrey Stillwell**. The end of senior year was emotional as well as exciting. Prom put everyone in good spirits right before graduation came around. Senior year meant a lot to everyone that finally made it there. Nothing was better than knowing that everything you did in high school finally paid off when you get accepted to that college you've always wanted to go to, or you receive that scholarship that you've been working so hard for. - *Kimi Schafer and Kaylee Mingione*

Helping Hands

With a small school, it should be no surprise that students and teachers have such a close bond. "I just love Biology teacher," said Hannah Tilley. "I'm interested in marine biology, and I'm glad I have a when I need some extra help. hilarious!" Many students are teachers and the subject they much more enjoyable for small class sizes is that students one time and attention from those busy teaching multiple willing to drop what they were doing to help out a pupil that needed a little extra guidance. It would be safe to assume that most students enjoyed the opportunity to get a great education from such a hardworking staff. Of course, the staff members themselves enjoyed it, too. When asked why she loves teaching here, Mrs. Chemaigh Drumm said, "In all honesty, the students are the number one reason, followed by being able to express a faith based education, a supportive staff and the family atmosphere that is prominent here. I wouldn't teach anywhere else - it was here I found my calling." - Abby Valkovci

Where Everybody Makes the Grade

We Can DO It!

Academics flourished this past year with the addition of three new teachers along with a new guidance counselor. "My favorite class that I took this past year was Introduction to Engineering with Mrs. Lou Ann Center. I like this class, because I got to work with computers and learn how to do new things," Clayton Elsbury stated.

This past year, students were offered five honors and AP classes that prepared them for college and their life as an adult in the real world. Allie Lustig said, "Comming back to Shawe has really helped me academically. Although it is a challenge to keep my grades up, it is totally worth all of my hard work."

Whether it is English or Biology classes, students were always challenged at Shawe. When they graduated, they left with a good foundation for their life to come. "All of my hard work throughout the last six years that I have been at Shawe has really paid off. I have gotten accepted to all of the colleges that I have applied to and in addition, I have recieved numerous scholarships," commented Tori Valkovci.

Story By Brittney Snodgrass
Photo by Brittney Snodgrass

Above: Amazed, Jarrod Rampy respects his engineering project that he and his group members have designed. As a precursor to Introduction to Engineering, Principals of Engineering was more hands on with building prototypes by using the new fischertechnik parts, as seen in the picture above.

Moving on Up

With the many language arts classes that students were offered this year, they had more choices when it came to making their schedule. From Regular to Honors and AP, Etymology, Contemporary Literature and Composition, the three English teachers were kept very busy. "My favorite English teacher is **Mr. John Kalb**. I have had him every year since seventh grade," **Angela Goley** commented.

The first opportunity for students to take an honors class at Shawe is their freshman year in high school. **Megan Goebel**, a freshman said, "The hardest part about going from regular to honors English class was the change in the amount of work. It was a hard adjustment that I am still getting used to."

Some students found it difficult completing all of their assignments throughout the week, while others want more. In the end the students become ready for college classes, the ACT and the SAT.

Sometimes, the English teachers would show videos on the particular subjects that the students happened to be studying at the time. This would give students a greater understanding of the subjects along with some down time, so they could relax and have time off. "My favorite part of English class this year was reading all of the interesting books and talking to **Noah Miller** about how cool his last name is," stated **Joe Nchia**.

Jennifer Morris said, "My favorite English class so far is my twelfth grade English class, because I got to hang out and become friends with **Olivia Gilpin**. We also liked to make jokes with **Mr. John Kalb** who is a really great teacher." -*Brittney Snodgrass*

Allison Mruzek listens intently to Mrs. Evans tell scary Spanish stories. She was known to do this from time to time. It's a fun activity all the students enjoy. photo by Mrs. Carolyn Gray

KATIE MCGEE, 10TH

"What I like most about taking Spanish class is knowing that I can speak another language."

HAN COCKBURN, 12TH

"My favorite part about French class is getting to eat my granola bars."

BAILEE KOEHLER, 8TH

"I like learning a new language and I like having fiestas. I like learning about a different culture."

Breaking Down the Borders

At Shawe over half of the students not only took an English class, but also took either French or Spanish. Some took these classes to broaden their knowledge of other cultures, while others simply took them to fulfill the requirements for college admissions.

Students like **William Craig**, went above and beyond and study both French and Spanish. "It's really interesting to see and hear the similarities between the two languages," commented **William** when asked what it was like taking both.

Every year, the two language classes take turns taking a trip to either Spain or France during the spring break of their junior or senior year. The students spend the week learning everything about the new culture. For most, this is their first time traveling outside of the United States. "It was a great experience and opportunity. The first day I was in Spain, I automatically fell in love with its style and traditions. Going there made me want to live there for some portion of my life. I never would have gotten that experience if I wouldn't have taken Spanish class," **Brogan Drumm** exclaimed when asked about her experience traveling to Spain last year.

Shawe's foreign language classes do more than just learn from the books. They do fun activities like have fiestas and pitch in breakfasts, multiple projects that help expand their knowledge of the country, both French and Spanish take turns going over to the elementary school to teach the grade school children their language, and they do many fun crafts that coincide with certain holidays, like the Day of the Dead. "My favorite thing we do in Spanish is our tele novelas," said **Madison Drumm** when asked what activity she enjoyed most in Spanish class. Tele novelas are Spanish soap operas that the students get to plan and perform for the rest of their classmates.

Students who took a foreign language class have found out that not only is it loaded with fun but that it also helps better prepare them for the world after high school. -*Caitlin Kelly*

Challenging Experiments

Of all the different science courses offered at Shawe, students sought out some of what are considered the most difficult courses. Upperclassmen chose these classes to prepare themselves for college and the heavy workload ahead of them, underclassmen however did not really have a choice as to what science courses they were going to take yet, those choices come for them when they become freshmen and have more options to choose from.

Anatomy senior **Taylor Miles**, when asked what the hardest part about taking anatomy was, replied, "It is really difficult because it is only one semester long, and it should be a year long class with everything that you have to learn and the workload that is put on us. It is also really hard trying to balance all the anatomy homework with my AP English homework along with the extra curricular activities that I participate in."

Not only is anatomy considered a harder science course, but other ones have included Chemistry II and Biology II as well.

Ashley Josephsen, who is currently not an anatomy student stated that the hardest science course that she has taken while at Shawe has been, "Chemistry I and Chemistry II because it takes a long time for things that **Mrs. Maria Armbrrecht** talks about, and all the concepts we have to learn take awhile to actually click for me."

The good thing about having to take these challenging classes is that the teachers are always around before school, after school and even during lunch, to sit down with the student and explain things to them that they need to know for a big test, final, quiz or even homework assignment. - *Kaylee Mingione*

Far left: While challenging himself in Anatomy, **Sam Schofer** holds a Real Care Baby upside down to show what not to do to a real baby. Investing in these babies was a good way to keep some students entertained with having to take care of this baby that cried and burped just like a real child. photo by *Kaylee Mingione*

Left: **Chris Peterson**, intrigued by the starfish's anatomy, enjoys all his time spent completing all the different experiments that take place throughout the year in his Biology class. photo by *Abby Valkovci*

Eighth graders Hannah Miller and Hannah Storm put their brains together during the Biology I owl pellet experiment. Normally a Freshmen class, both girls can manage the workload even though they are still in middle school. photo by Abby Valkovci

JESSE BALL, 10TH

"My favorite science experiment is all the dissections we do."

COURTNEY LAUDERBAUGH, 7TH

"We haven't done that many experiments yet, but the strawberry DNA is my favorite."

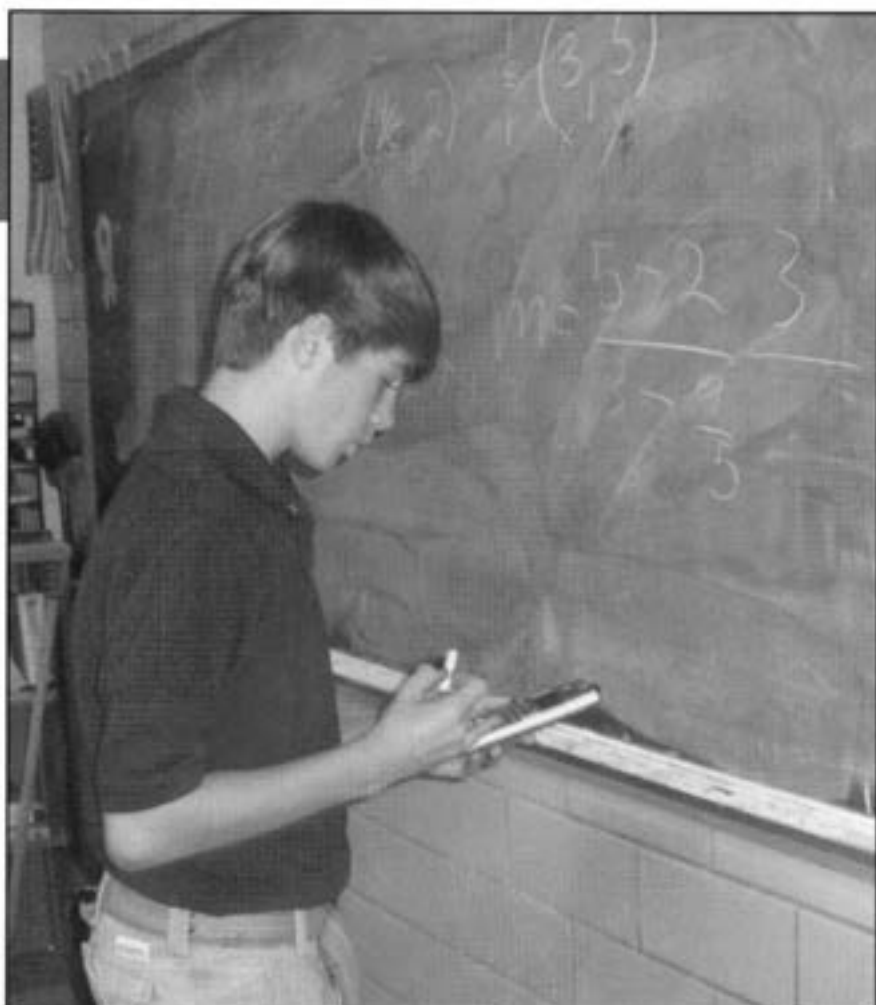

AUDREY STILLWELL, 12TH

"I'd have to say that my favorite science experiment is probably having hydrogen balloon explosions."

Calculator in hand, Jack Hietz works on figuring out the solution to a problem. Seeing fellow classmates work out problems step-by-step seemed to help many students learn and memorize formulas and procedures. photo by Abby Valkovci

During a free moment to work on homework in class, Mrs. Jane Riehle assists Myles Hesse in understanding his homework. photo by Abby Valkovci

KALYN ROBISON, 10TH

"I enjoy learning something new every day and challenging myself."

MCKAY BURDETTE, 7TH

"I enjoy discovering new ways to work out problems that I didn't know how to solve before."

JALYNN COPELAND, 10TH

"I like getting to learn how to solve difficult problems."

Formula For Success

Known and sometimes even detested for its infamously difficult concepts, nightly homework and copious amounts of notetaking, one could say that math is a class that few look forward to. "Some things just go right over my head in math class, and sometimes I have trouble understanding what's going on," said **Stephanie Scoggins** of math's difficulty. "It's hard."

Whether it's Pre-Algebra or Pre-Trigonometry, it's not uncommon for many students to sometimes find themselves stumped while sitting in math class. However, with this difficulty, math classes inspire students to challenge themselves, and fortunately the student body is able to turn to staff members for additional guidance. Math teachers **Mrs. Teresa Torline** and **Mrs. Jane Riehle** gladly help out those who don't understand homework or the current lesson, and if students need a little extra help, principal, **Mr. Bomholt** is always happy to assist. Some even go so far as to create study groups with friends and peers. Many rise to the challenge to make the grade in math class, possibly because students recognize the benefits of actually learning the subject instead of just memorizing formulas for a test.

"One day when we're out on our own we're going to have to pay bills, go grocery shopping and do other things necessary in life, and that's when we'll need to use math. If we don't learn it now, some things in life are going to be a lot harder than they would be if we just payed attention in school," noted **Hannah Tilley**. After high school, math will be used in college, at work and in various other areas of your life, and some students like to plan ahead for future success and go the extra mile in math class. Whether it's tutoring, excellent note taking, solid study skills or just raising your hand and speaking up when you don't understand something in class, there are tons of ways for any student to gain valuable knowledge, maintain their grade and, in the long run, succeed.

- *Abby Valkovci*

Right: Paying close attention, **Allison Mruzek** copies down the notes **Mrs. Jane Riehle** writes on the board. Though **Mrs. Riehle** didn't require students to keep an organized binder for a grade, many students found it beneficial to take notes on her lessons for later reference. *photo by Abby Valkovci*

Far right: Gooing off and making their own fun, **David Grote** and **Luke Higgins** pal around during a dull moment in their Algebra II class. *photo by Abby Valkovci*

A Blast to the Past!

Students throughout school study all different types of history from U.S. History to Government. Gaining a knowledge of our past is very important, and the teachers at Shawe strive to make sure that students leave with a better understanding of history.

Through projects like posters and papers, students learn about their past in unique ways. **Miss Jenniger Nigg** always has interesting and exciting projects for students to do. One that everyone looks forward to is making videos about the twenties in **Miss Nigg's** US History class. Some found specific parts of their classes more challenging than others. When asked about his AP US History class **Douglas Totten** said, "There is plenty of work and the quizzes are difficult, but the class is great and I'm definitely benefiting from it."

The history department experienced a new edition for part of the school year. **Mr. Cody Fink**, a student from Hanover College, came in as a student teacher for **Miss Jennifer Nigg**. **Mr. Fink** spent the majority of the first semester student teaching at Shawe. "Having someone new at school is always exciting!" said **Caitlin Kelly**, when asked about what it is like to have someone new teaching her U.S. History class.

Upperclassmen had the opportunity to participate in Model United Nations at Indiana University Southeast. This is a great way for high school students to learn more about the debate that takes place during United Nations meetings. Juniors and seniors from different schools participate in Model UN and delegates pair up to represent different countries. This is biggest activity that the Social Studies department as a whole, participates in. "I enjoy congregating and then debating with fellow intellectuals, also called nerds. Also, any time spent palling around with **Mr. Hesse** and **Miss Nigg** is time well spent!" commented **Andy Reuss**.

Learning about politics, geography, and our country as well as other countries pasts can be rather dull and boring, but through exciting projects and games students find themselves much more intrigued and interested in learning. Learning about history and everything that it entails is very important because being aware of one's past creates their present and future. -*Kimi Schafer*

For Left: **Joe Nohia** and **Luke Higgins** work on their history homework in the library together. **Miss Nigg** occasionally gave her students opportunities get help from other students. *photo by Kimi Schafer*

Left: **Kimi Schafer** and **Kaylee Mingione** attempt to focus and study for an AP Government test. Several students commented on how difficult **Mr. Hesse's** AP Government tests were, but they always found it helpful to study with classmates. *photo by Brittany Snodgrass.*

ADDIE DAVIS, 9TH

"Doing skits is my favorite activity in religion class."

CHLOE STORM, 11TH

"My favorite activity is class discussions, because we can get multiple opinions on controversial subjects."

MICHAEL ELBURG, 11TH

"I like how we talk about things and how we watch religious movies."

New Beginnings

This year was a fresh start for sophomore, junior and senior religion classes. Normally, these students would have had **Mr. Joe Stilwell** as a religion teacher, but after moving away, the high schoolers were left without a teacher. It didn't take long for a replacement to be found. **Mrs. Chemaigh Drumm**, who had originally been the junior high English teacher and the journalism teacher, was now the religion teacher alongside **Mrs. Bridget Fry**. **Mrs. Chemaigh Drumm** and students alike were anxious for the new beginning.

The switch from class structure was a bit shocking for most students, but it didn't take long to get into the swing of things. "Initially I thought it was going to be a difficult switch, but **Mrs. Chemaigh Drumm** did a really good job making it an easy change. She added to what we had previously learned, but also made it a new and different class," commented **Kimi Schafer**.

Both high school and junior high religion classes get the chance to get together in groups and make skits that mimic parables from the Bible. Students were usually given a couple of days to prepare, and then had to perform in front of their fellow classmates. Some students really got into their characters producing many laughs and of course, a good grade.

Religion was an opportunity offered that no other surrounding school could provide. It's just one of the several things that made Shawe unique. **Susan Goley** said, "I feel priveleged to have a religion class at my school, especially when I think that other schools don't get to because it violates their rights!"

Students get the chance to go to Mass once a week as a student body, take part in service hours, pray every morning and afternoon, and learn about the history of the Church and other religions as well. Shawe was a place where religion was accepted, whether a student is Catholic, Protestant, Lutheran, or other and the most spectacular thing about this was that we could all come together as one. -*Caitlin Kelly*

(Right) *Caitlin Kelly, Maggie Campbell, and Liz Grote* share a laugh as they brave the cold for the annual Pro-Life March in Washington D.C. that students can take part in. This is an annual trip that is open to the youth of the Parish.

Energizing the Mind and Body

Health and P.E. have always been two of the favored classes offered among the junior high students, as well as some high school students.

When asked what her favorite part of P.E. was, sophomore **Ashley Buxton** said this, "I must say, the week we did yoga was definately fun. Watching the other people in my class try to be flexible was hilarious!"

Students appreciated the opportunity to interact with friends and play daily games while still learning to stay healthy. Physical Education may have been the crowd favorite of the two. Many students could agree that learning about both health and P.E. in the same year helped them to understand more about staying active while maintaining the right diet.

Taylor Kelly said, "My favorite thing to learn in health was staying healthy, even though he was tempted to eat fast food," he continued to say, "It also helps that I play sports. This is another way I stay healthy."

P.E. and health gave students a new perspective on keeping up with healthy food and staying active. **Madison Drumm** told us her perspective on staying healthy, "By taking P.E. I have learned how to stay fit. I definately enjoyed learning new was to exercise, it was the best part of P.E." These classes may be in fact change the way some students live their lives. -Taylor Miles

Far Left: Myles Hesse raises his hand to ask Mrs. Rochael Baudendistel about a question on their review packet that he does not understand. During health class students worked diligently by taking notes and asking questions. photo by Taylor Miles

Left: Max McGee winds up to kick the ball while his teammates wait patiently for their turn to kick. Kickball became the crowd favorite. This game provided the students with much entertainment. photo by Taylor Miles

Madison Drumm and Addie Davis share a laugh while participating in yoga during their physical education class. Most students admittedly enjoyed practicing yoga, it was a different experience for them. photo by Taylor Miles

Ivy Schafer hangs up a poster that she made about bully awareness. Students in health class created posters about bullying and obesity awareness and hung them up in the hallway to let students see what they learned. photo by Taylor Miles

GILLIAN WATKINS, 8TH

"Capture the flag is my favorite activity, it is really a rush. I am so fast. I love this game!"

MEGAN WHITHAM, 8TH

"My favorite activity is capture the flag. You have to have a good team and good strategies."

CRISTAL RIOS, 8TH

"My favorite activity is kickball."

A Challenge Ahead

Engineering classes were not easy classes to take, but some students liked the challenge. Engineering students had to work hard and often asked for help. **Mrs. Lou Ann Center** helped students with sketches and animated trains.

Students were always busy in class, taking their time with making a Rubik's cube among other assignments. AUTO CAD was one of the new programs they had to work with. It is a program that drew simple figures, instead of the students drawing the figures by hand. Some students really liked the idea of AUTO CAD, while others preferred to draw the pictures by hand.

"This class helps me understand more about engineering. It's a career I might be interested in, so I find this class very helpful," says **Connor Boone**. After taking this class, many students were thinking about choosing this as a career. Engineering classes were great classes to take, because some students found out they might really want to pursue a career in engineering.

In economics, students learned how to balance a budget, about the Black Market and The Better Business Bureau. Economics could be challenging at times, but **Mrs. Lou Ann Center** was always there to help students with whatever they needed help with. Economics turned out not only to be a class with lots of information, but also a class that will help you in life. - *Olivia Vaughn*

For Left: Zack Tingle and Nash Uebel work on the computer while doing a project. "I think this course would be great to put on a college resume," Zack said. *photo by Olivia Vaughn*

Left: Jordan Robison studies hard before an economics test. "It wasn't an easy test, but I feel I did well on it," stated Jordan. *photo by Bonnie Wentworth*

Whit Grote takes his time with AUTO CAD. Students found AUTO CAD difficult at times, and took their time with it. *photo by Olivia Vaughn*

Mrs. Lou Ann Center teaches her students about AUTO CAD. *photo by Olivia Vaughn*

KAYLA CIESLINSKI, 9TH

"I found working with AUTO CAD very difficult because its a whole new program to learn."

CONNOR BOONE, 9TH

"The most fun I had in Intro to Engineering was making puzzle cubes and boxes."

TAYLOR GROTE, 9TH

"I think AUTO CAD was much easier to use than drawing, because I'm not very good at drawing."

Creativity Sparks

The art class at Shawe brings an opportunity for students to let their creativity out and release some amounts of stress. Because it is an elective, some students don't pick it up as a class, but once students realize how relaxing it could be, they're quick to change their minds. Although it's relaxing, it could also be somewhat stressful at moments. Art at Shawe isn't an easy A, because it requires discipline atop of creativity.

Recently, the art department took a field trip to the Speed Art Museum to experience all different forms of art ranging from classical to more modern art. The students looked forward to the trip every year because it gave them an opportunity to show their appreciation for art. The art department will participate in the Madison Chautauqua Festival of Arts. The students made different projects to sell at the festival in September. This is an exciting event for members of the art department, because they are able to experience appreciation for their own artwork.

Mrs. Williams mixes it up with new projects, but there were always projects that are resurrected from the year before. Seniors looked forward to making ceiling tiles, photo kaleidoscopes, post secrets, Bob Ross paintings, and painted Mexican dot projects. "My favorite art project would have to be the mosaic's that we made this year," said new student, **Casey Applegate**. Other students don't have specific project that they enjoy the most; they simply love art in general. "My favorite type of art is anything that has to do with drawing. That's my favorite thing to do," mentioned **Michael Elburg** while discussing different types of art with his classmates.

The art department at Shawe encourages any type of participation in art whether it be making new projects, reviewing classical paintings, selling their artwork at different events. Thanks to Mrs. Williams dedication to improving students' skills and the students' determination to succeed in everything they do.

-Kimi Schafer

Far left: Art teacher, Carole Williams offers Susan Galey some helpful suggestions for her project. Mrs. Williams enjoyed giving advice to the students while the students really value her insight. photo by Kimi Schafer

Left: Hanna Backlund, Deborah Calderzo and Shelby Greene help Brogan Drumm sand a stool for Brogan's project. Brogan appreciated the help from her classmates because she feared that she wouldn't finish on time since it was bigger than most of the other student's projects. photo by Erin Payner

Lauren Goebel works hard to get her mosaic finished by deadline. Some students found it difficult to complete their assignments on time because they always wanted to add something else. photo by Kimi Schafer

MICHEAL KRING, 12TH

"The best part of art would have to be learning all of the different types of way to make art. It's great!"

MADDIE WALLER, 7TH

"Mrs. Williams is hilarious! She likes to joke around with all of the students. That is definitely the best part of art."

HANNA BACKLUND, 11TH

"What I enjoy about art is the creativity through every project and what it looks like when it's finished."

Intently listening to mother, Jay, Porto and Cinderella want to know exactly what their mother has to say. **Brogan Drumm, Abby McInteer, December Miles and Taylor Miles** all acted well together because they were all great friends. *photo by Kathy Chandler*

Celebrating their love for one another, Cinderella, played by **Brogan Drumm**, and Prince, played by **Casey Applegate**, join hands in matrimony. *photo by Kathy Chandler*

BROGAN DRUMM, 12TH

"I loved being Cinderella. Being on stage is my passion so performing a show where I could shine was fantastic."

TAYLOR MILES, 12TH

"My favorite part was being on stage with my friends. I loved that I got to play a difficult leading role."

SARAH TORLINE, 12TH

"My favorite thing about the musical was the experience. Everyone worked together to make this production phenomenal."

Cinderella

Preparing for magic and much more, the cast of this year's musical, *Cinderella*, worked hard on stage as well as behind the scenes. Many of the performers dedicated time outside of the classroom to bring together an enchanted world of fun and laughter. One of the newer members to the class, **December Miles**, gave her insight on how much time it took to construct this musical, as well as perfecting her character, Joy, "I had to do various jobs with costumes. At home I sewed and did repairs on any costume that needed it. For my character, sometimes I would walk around school all day talking in my character's voice. Reading through lines with my sister really helped as well!"

Performing children's theater was a new concept for this year's musical. This year, the cast held a tea party called Cinderella's Tea, for young princes and princesses to come and meet some of the cast, while learning princess lessons. Some of the cast members that joined the tea party included, Cinderella, the Prince, the step family and the Fairy Godmother played by **Ashley Josephson**. She told us about her Cinderella tea party experience, "I loved when the little girls held my wand. They were in such awe, and when I performed it was much easier. I could perform just for them." Children's theater became difficult for some, but others loved playing up their character and being outrageous.

The cast varied from seniors on down to freshman. **Casey Applegate**, a freshman, proved his talent when he landed his first time role as the prince. "Honestly I was taken by surprise. I never saw myself as an actor, but I was ready to do my best and put on a great show."

Longs hours of dedication and hard work certainly paid off when it came to show time. The cast recieved many compliments of praise for their performances. -Taylor Miles

Right: Recently transformed into a princess Cinderella and the Fairy Godmother prepare to take off for the ball. This scene became quite difficult for the actors when they had to move the carriage across stage. photo by Kathy Chandler

Far Right: The prince exclaims his high regard for finding the love of his life. The queen, played by Sarah Torline, is saddened for her son. These actors and actresses in this scene portrayed their characters very well. photo by Kathy Chandler

Scholarships Reward Brilliance

With family members and close friends all gathered round, the twenty seven seniors met together to partake in the annual Senior Scholarship Program to reward all the hard work the students put into their educations. **Olivia Gilpin, Susan Goley, Hana Roberts, Andy Reuss,** and **Sarah Torline** were awarded \$500 each from American Legion Post #9. The American Red Cross Scholarship awarded \$250 each to **Olivia Daugherty, Olivia Gilpin,** and **Sarah Torline.** **Hana Roberts** was awarded the \$500 Bethany Circle Scholarship. \$200 was given to **Reggie Perry** through the International Order of King's Daughters & Sons Southeastern District. Delta Kappa Gamma awarded **Taylor Miles** with a flashdrive and case. **Olivia Gilpin** received \$1,300 from the Indiana Masonic Grand Lodge. The Ivy Tech State College Academic Scholarship worth \$1,000 was given to **Aaron Copeland.** The Jefferson County Farm Bureau and Phi Beta Psi Sorority both awarded **Susan Goley** with \$300 each. Jefferson County Extension Homemakers gave **Jennifer Morris** \$300. Jefferson County Retired Teachers Association awarded **Aaron Copeland** \$200. **Reggie Perry** received \$1,000 from the J.R. & Harriett Chandler Memorial scholarship. **Olivia Gilpin** won the Lions Club "We Serve Award" worth \$500. The \$600 Molly Dattilo Follow Your Dream scholarship was obtained by **Campbell Higbie.** The Broadway School Alumni scholarship for \$300 was given to **Audrey Stillwell.** **Susan Goley** was awarded \$500 through the James O. Cloyd Memorial. The Hall Family Scholarship gave **Campbell Higbie** \$250. **Kimi Schafer** won \$600 from the Ralph & Robyn Jones Family Memorial scholarship. The Wood Memorial gave **Sam Schafer** \$1,000. **Brogan Drumm** received \$1,000 from the Madison Chautauqua. The Paul Roahrig Scholarship worth \$250 was given to **Jennifer Morris.** **Campbell Higbie** received \$1,000 from the Connor Salm Scholarship. Knights of Columbus awarded **Aaron Copeland** with the Outstanding Youth Award worth \$400. **Susan Goley, Hana Roberts** and **Andy Reuss** all won Tri Kappa Awards. **Jennifer Morris** received the Knights of Columbus \$300 scholarship. **John Cockburn** and **Tori Valkovci** received awards from the French Club. **Taylor Miles** was awarded the American Association of University Women scholarship for \$500. SEI Communications gave **Sarah Torline** \$500. The Xi Beta Upsilon scholarship worth \$200 was awarded to **Kimi Schafer.** Twenty-First Century Scholars awarded **Dawson Fair** with free tuition at the University of Southern Indiana. **Sarah Torline** received \$1,000 from the Knights of Columbus Council #1631 scholarship.

Far Left: **Andy Reuss** flashes a grin as **Mrs. Angela Miller** awards him with one of several scholarships he won that night. *photo by Barb Daugherty*

Left: **Aaron Copeland** proudly accepts an award as the audience applauds his achievement. *photo by Barb Daugherty*

The Cull Family Memorial Scholarship gave \$1,000 to **Taylor Miles**. **Susan Goley** was awarded \$200 from Friends of Shawe & Pope John Schools, Inc. The Snider Scholarship Jennings County Community Foundation gave \$11,500 to **Taylor Miles**. **Andy Reuss** received \$500 from the Southeast Indiana Solid Waste District. \$100 was given to **Olivia Gilpin** and **Brogan Drumm** each through the Arts & Theatre Scholarship. Versailles American Legion Post #173 gave \$500 to **Stephanie Scoggins**. The Vehicles Service Group awarded **Audrey Stillwell** \$1,000. **Michael Kring** and **Hana Roberts** received \$200 each from the Florence VanWye Memorial Scholarship. Veterans of Foreign War Post #1969 gave **Hana Roberts** \$1,000. The River Valley Financial "AIM" Scholarship for \$500 was awarded to **Campbell Higbie**. **Sarah Torline** received \$350 from the American Legion Auxiliary scholarship. The Tri Kappa Mental Attitude Award for \$100 was given to **Campbell Higbie**. The Elks Most Valuable Student award was given to **Andy Reuss** along with \$4,000. **Reggie Perry** was awarded \$250 through the Teresa Koczergo Memorial scholarship. **Andy Reuss**, **Taylor Miles**, **Susan Goley** and **Stephanie Scoggins** were given scholarships from the Madison Rotary Club. The John & Freda Bott Memorial scholarship awarded **Campbell Higbie** with \$1,200. The Wabash College Academic Scholarship was given to **Campbell Higbie** for \$50,000 over four years. The Shawe Memorial Class of 1960 gave **Kimi Schafer** \$1,300. **Jennifer Morris** was given \$500 by Sons of the American Legion Squadron 9. **Hana Roberts** and **Jennifer Morris** received \$500 each from the Madison Township Volunteer Fire Department. The Madison Rotary Citizenship Award was given to **Andy Reuss**. **Taylor Miles** received \$500 from both the Frances Brooks Hicks Memorial scholarship and the Jordyn Vance Memorial Scholarship each. The Choice Automobiles of Madison Car Club awarded **Jennifer Morris** with \$500. - Abby Valkovci

Reggie Perry shares the love as he hugs those who presented him with an award.
photo by Barb Daugherty

SUSAN GOLEY

"The best award I received was the President's Award. It means a lot to know I was chosen out of the whole class."

STEPHANIE SCOGGINS

"I loved getting a scholarship from the Rotary Club!"

JENNIFER MORRIS

"I'm proud of myself for receiving all that I did. I'm so grateful and glad that it's going to be easier to pay for college now!"

Where Everybody Gets Involved

Clubs Help Form Bonds

Clubs gave students an opportunity to branch out and make new friends while doing something they enjoyed. Whether it was volunteer work with NHS, working on pages for the yearbook or selling candy for French Club, students were able to talk to people with similar interests and have fun. "I loved being apart of Golden Rowdies," said **Aczael Rios**. "I got to hang out with some awesome people and of course I loved getting to scream as loud as I wanted to at all the games!" Being in a club not only helped students new and old feel more welcomed and included in day to day activities, but also allowed those who chose to participate to experience great opportunities like service projects or fun activities with peers. "I love being in the National Junior Honor Society because we learn to be responsible and help others. It's preparing me for National Honor Society, and if I make NHS that will look good on college applications," noted **Hannah Storm**. Whether it was just for fun times with friends or to help improve skills and achieve academic excellence, most everyone appeared glad they chose to be in a club.

Story by Abby Valkovci
Photo by Erin Poyner

Susan Goley of the National Honor Society speaks at the induction ceremony for new NHS members. Getting accepted into NHS was quite an achievement for students, and the new inductees were honored with a ceremony in front of the whole school.

December Miles and Kyle Wisman prepare a pinata to be hung from the ceiling. The Spanish Club always had many fun activities planned for its members, including busting open authentic pinatas to gather the candy that pours out. *photo by Carolyn Gray*

Left: Campbell Higbie and Nick Craig work with yarn and glue to make a portrait of a skull. The Spanish club took part in many arts and crafts activities for *Día de los Muertos*, or Day of the Dead. *photo by Carolyn Gray*

French club members are often given the opportunity to have fun while still learning the language. Tori Valkovci, Jake Sanders and Nico Mingione refresh their memory of vocabulary terms as they teach Pope John students some words in french. *photo by Caitlin Kelly*

Caitlin Kelly looks through pictures to use on her yearbook page. It was important that those on the yearbook staff utilized their time to get their pages completed by deadline, and Caitlin, along with the rest of the hard working staff, could almost always be seen working diligently. *photo by Erin Poyner*

New Club Reaches New Heights

This year Shawe Memorial started something that has never been done in the school's history. Ten students decided to take the challenge upon themselves to become a part of the Spell Bowl team. Without having the amount of time to prepare as they thought they would, the participants shocked everyone at the regional spell bowl meet held at Austin High School - they ended up winning by a landslide. After that win the team had less than a month to prepare themselves for the State Spell Bowl Meet in Lafayette, Indiana, at Purdue University. Along with winning the meet at Austin High School, many memories were made.

Laughs were shared everywhere with this year's spell bowl team. When asked what his favorite memory was while he was on the spell bowl team, **Andy Reuss** recalled, "My favorite memory was falling on stage at the state competition. Although it hurt, the looks people gave me were definitely worth every second of it."

All the participants were more and more excited as the state meet got closer, all the students that went talked about how many interesting people were there, and everyone thought it was pretty cool to see how other schools prepared for the event as well. Senior member **Susan Goley** commented, "The most exciting part about going to the state spell meet was that it was awesome to make it that far, none of us thought we would make it past the regional competition and we did. We also met a lot of new, interesting people while we were there. All in all it was just a really fun and interesting experience, and I'm glad I got to be apart of it - especially since it was my senior year."

With this being the first Spell Bowl team our school has ever had, and the team making it all the way to the state competition, the first year members have definitely set the bar very high for the years to follow. After getting over the first year jitters for the younger members, they can only get better from here. - *Kaylee Mingione*

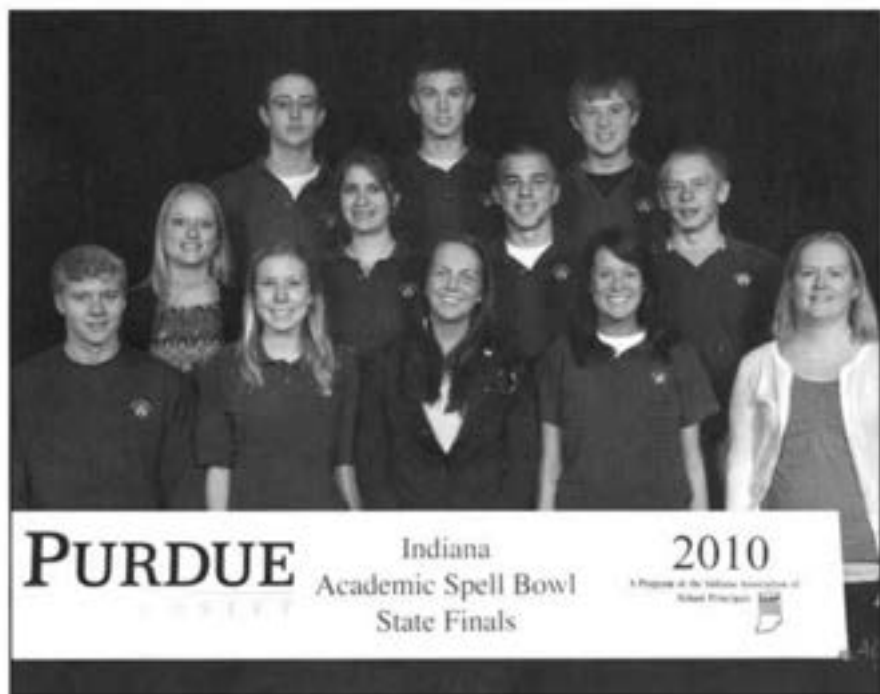

For left: Students Susan Goley, Michael Muessel, and Josh Patrick all sit and study while anticipating the wait for their turn to go on stage. *photo by Erin Payner*

Left: Doug Totten, Andy Reuss, Audrey Stillwell and Hana Roberts look over all 15 pages of their study guides to make their best attempts at spelling all the words. Many students enjoyed studying with their friends and chatting between words in order to calm their nerves before having to go on stage and spell the words. *photo by Erin Payner*

KIMI SCHAFER, 12TH

"The yearbook is really important, and I wanted to contribute since it's my senior year."

BRITTNEY SNOGRASS, 10TH

"I wanted to be on the staff so I could be more involved in the school. Taking pictures and designing pages are my favorite!"

TAYLOR MILES, 12TH

"With it being my senior year, I wanted to help out to make the best yearbook ever."

Making Memories

While a highlight of the year for many students may have been flipping through the yearbook looking for pictures of themselves and reflecting on the past school year, the highlight for the yearbook staff was actually creating the book.

"My favorite part was that I got to help create the book my senior year, and getting to choose the theme was great," noted **Kaylee Mingione**, of the best part of the process in her opinion. Students who accepted the challenge of finishing an impressive yearbook found the experience as a whole to be quite rewarding, as everyone involved gained invaluable skills, learned many new things and improved existing talents they already possessed.

Though the year was definitely full of highs, lows and a handful of computer issues, the dedicated staff tried their hardest to not only complete everything on schedule, but to create a well-made book that everyone would be impressed with and proud of years later.

When most high schoolers were busy making memories, the yearbook staff had their hands full working together to make an actual book to be published, in order to help everyone remember such moments for years to come. A yearbook is something to keep and cherish forever, to help bring back memories of some of the best years of your life. Though yearbooks are special to a lot of people, the staff themselves will be able to look back and know they helped to create that book, and without them it never would have been possible. Most students on the staff agreed that all the hard work and effort going into their pages was well worth the end results. "At the end of year, being able to look at the finished yearbook and say, 'I did that,' is great," said **Caitlin Kelly**. - *Abby Valkovci*

Right: Flipping through a phone book, **Kaylee Mingione** carefully looks over the yellow pages to find a potential ad buyer. Advertising was a crucial part of yearbook as creating a book is impossible without funds raised by selling ad space in the back of the book.

Helping in the Community

The National Junior Honor Society participated in many activities this year. From helping out at events to baking and decorating cookies for teachers, these select few were kept busy. While they were volunteering in the community, they were also transforming into better students.

To even be considered as a member of this elite club, the student must have had a GPA of a 3.0 or higher. In addition, they had to show qualities of scholarship, leadership, character, service and citizenship.

This year members had the opportunity to volunteer by helping set up and tear down at the *Christ Renews His Parish Womens Retreat*. In addition, they also participated in *Bowl for Kids Sake* and numerous other activities. **Bailee Koehler** commented, "My favorite National Junior Honor Society activity was helping the children who were in need around the Christmas season."

A least favorite among members were the early morning meetings. Although they were only once a month, they were held at 7:10 in the morning. "My favorite part of the meetings is sometimes getting doughnuts. They were awesome!" stated **Jordan Wentworth**.

The club added thirteen new members comprised of select seventh and eighth graders at the end of the year. However, they will lose the seven freshmen who are presently enrolled. Those older members will then be eligible to join the National Honor Society in their sophomore year. **Olivia Vaughn** commented, "I am very excited to hopefully join the National Honor Society next year! I can not wait for all of the cool volunteer opportunities we will get to be involved in, plus I will be someone that the underclassmen will look up to." -*Brittney Snodgrass*

Far left: NJHS members listen carefully during their monthly meeting. The meetings were a great way to relay information about upcoming activities. *photo by Brittney Snodgrass*

TAYLOR DAVIS, 11TH

"My favorite part of NHS is getting involved in my school and doing service projects."

DOUG TOTTON, 11TH

"My favorite part of NHS is being a leader in school as well as in my community."

BROGAN DRUMM, 12TH

"My favorite part of NHS is knowing that I have worked hard to serve others, and the doughnuts at each meeting are great too!"

Creating Future Leaders

The National Honor Society is a club of excellence, leadership, service and character. To become a member one must have a grade point average of at least 3.5 and exemplify these four characteristics not only at school, but in their community as well.

To be a part of this organization is a dignified honor, **Campbell Higbie** commented on this "Being a member of the National Honor Society has given me great distinction on my college resume, but also I find joy in helping others and being a role model for my school. This membership truly gives me great satisfaction as a student."

Throughout the year the National Honor Society participated in projects to give back to the community. Service projects are an important part of this club. Each year the National Honor Society chooses unique ideas to show their service. One of the club's main projects is the recycling committee, headed by seniors **Brogan Drumm** and **Eric Grote**. This committee recycles each day after school, along with the help of the rest of the club members.

Maintaining membership required work, but many of the members thought it was well worth their time. **Tori Valkovci** said this, "Knowing that I have helped the community while serving others is a wonderful feeling. The leadership roles given to me while being in this club are roles that I can take with me to college."

The students in the National Honor Society are held to a higher standard than most. They learn lessons of leadership service and character. This club helps to create future leaders of this world. *Taylor Miles*

Right: Accepting his initiation certificate from Mr. Steve Hesse, Joshua Patrick is officially a part of the 2011 National Honor Society. The ceremony is held in the gymnasium every year to honor those students that were accepted into this prestigious club. *photo by Erin Poyner*

For right: Conducting their monthly meetings the sophomores, juniors and seniors of the National Honor Society discuss their spring service project. Each year NHS tried to come up with new ways to serve the community. *photo by Taylor Miles*

More Than Just a Foreign Language

The French Club at Shawe does more than just teach students the French language. Without them our school would be without a Spring Fling, candy after lunch, school wide dances, and various fundraising activities.

During class, French students get the chance to do projects that help them practice speaking the language. These exercises are to better prepare them for their trip to France. "Traveling to a different country is one thing everyone needs to do at some point in their lives. It's fascinating seeing how other cultures live," **Olivia Daughtery** said, when asked about her trip to France in 2011. For most students, the trip to France is what they look forward to the most, and ends up being one of the highlights of their year when they finally get to embark upon the journey as a junior or senior.

One of the things French Club is most known for is the candy sales after lunch. There are no snack machines available to students in the lounge, so the French Club provides candy and sometimes other types of snacks, like bite-sized Oreos, for students to purchase. The money raised from the sales helps cut the cost of the French trip.

The French Club does many things to help out our school community. Going over to the elementary school once a week to teach the younger grade school students French, is just one of those activities. "Teaching the second graders is the most fun thing we get to do. They are all so excited just to have us there, and over the year we've become good friends with them," **Nico Mingione** commented. Both the high school and the elementary enjoy this experience because have spread their knowledge of French and shown a window into a different culture. -*Caitlin Kelly*

Far Left: Taylor Miles, Madison Drumm, Jarrod Rumpy, and Chris Peterson dance to the beat of the song blaring in the school gymnasium. The Back to School Dance was just one of the many dances the French Club put on to raise money for their French trip. *photo by Deborah Calderazzo*

KATIE MCGEE, 10TH

"My favorite part about Spanish Club is having fiestas and watching *The Office* in Spanish"

JESSE BALL, 10TH

"My favorite part about Spanish Club was Mrs. Evans. She made everything that we did really fun."

JENNIFER MORRIS, 12TH

"My favorite part about Spanish Club was learning about the language and how Spanish speakers celebrate the holidays."

Fiesta!

Spanish Club inspired many students in both the junior high and the high school to join this year. With the majority of the one hundred and sixty students in the school taking a foreign language, and with only two options to choose from, Spanish club was packed. Students were able to participate in numerous fiestas and were even able to help out the Madison community. As a bonus of being in Spanish Club, students are given the opportunity to venture to Spain.

Participating in the many fiestas was a favorite activity among many students. The major fiestas included Día de Los Muertos, which is held around Halloween, and Cinco de Mayo, which is held in the month of May. "My favorite part about Spanish Club fiestas is watching *The Office* and eating all of the good food," commented **Chloe Storm**.

A new game that was introduced this year to the club was Loteria. This was just like Bingo, but with Spanish words. As a good way to learn vocabulary and to review, Loteria was a big hit with students always asking to play.

Students also got the opportunity to volunteer at the annual Hispanic Festival in Madison. The Spanish Club had a booth at which they offered face painting, plate painting, pinata making and cornhole games for the children to participate in. "I actually did not work at the festival, but hearing about all of the fun that they had, I am going to next year," stated **Janey Seaver**.

Going to Spain is always something to look forward to. Students have the opportunity to venture to Spain either their junior or senior year of school. Senior **Stephanie Scoggins** commented, "I went to Spain last year and loved it! My favorite part was getting to try their coffee." -*Brittney Snodgrass*

Right: Mrs. Gray carefully checks to see if one of her students had indeed recieved a Loteria! This fun game was just like Bingo, but with a twist of only using the Spanish language. It was a break from class work, but still involved learning the Spanish verbs. *photo by Brittney Snodgrass*

Far Right: Allison Murzek presents her poster on The Alamo. Every student in the club made posters and later presented them to the class. In addition to a day away from the book, they also got to enjoy a fiesta. *photo by Brittney Snodgrass*

Help Along The Way

School spirit is vital at all school functions and sporting events. All of the sports teams at Shawe rely on the spirit from the fans during games. The Golden Rowdies and Irish Chicks make it their jobs to get everyone involved in showing support for Shawe's teams. The air is filled with excitement at many sporting events, due to these special clubs. The Golden Rowdies and the Irish Chicks are always trying to think of new and different ways to express their spirit for our school, and our teams, with each new year. "I feel like the Golden Rowdies and Irish Chicks both support my team. They come to the games and cheer as loud as they can. I can't imagine a game without fans; it just wouldn't be a game. Support from the student body really gets us pumped up for a victory!" said **Chloe Storm**. A big part of the school participates in sports, but an even greater amount of students participates in either Golden Rowdies or Irish Chicks.

The Golden Rowdies loves boys junior varsity and varsity basketball games, because it gives them the opportunity to think of a new theme. Theme nights at basketball games make it possible for students to really get into games and show their support. The basketball team truly appreciates the excitement from the fans and sometimes need help and support from the fans to pull out a win. "Having the Golden Rowdies organizing theme nights for the basketball games helps motivate everyone on the team," commented **Matt Armstrong**. Whether we win or lose, Shawe's fans are constantly showing their spirit and support for their teams.

Whether it be a soccer game, basketball game, or volleyball game, the Golden Rowdies and Irish Chicks make it their job to do more than just attend the game; they bring a presence to the players and motivation to the teams. Win or lose, the fans are always there to support. -*Kimi Schafer*

"My favorite student council event is fast food days, we get to order pizza for lunch."

KIMI SCHAFER, 12TH

"I enjoy Homecoming because it really shows student council's creativity."

SHANNON FRY, 7TH

"I like Shave games because we get to dress down and play games all day."

New Leadership Brings New Accomplishments

Student Council is one of the biggest clubs at Shawe. They definitely had their hands full throughout the year. With a new president, events were guaranteed to happen. **Sarah Torline** accepted her leadership responsibilities with grace, and has proven that she can lead a great council. When asked what she thought about the "new and improved" council Sarah said, "I really thought student council did a great job. Every event that was planned was carefully carried out to its full potential. The event I was most proud of was homecoming. The committee did an amazing job and I am truly proud of the student council members who put it together. Overall, I was thrilled about the productivity of the council."

The student council carried out over ten events throughout the school year. Their leadership skills reflected in the work and effort that was put into each event. New members of student council voiced their opinion on the subject. **Ian Banta** said, "I really enjoyed being on student council, because I felt like I was truly involved in the school. Student council events became some of my favorite things about Shawe."

Hannah Miller spoke about her leadership in the council, "This year I was in charge of the grant committee and I enjoyed the responsibility, even though I was younger, I could still accomplish great things."

Each grade level of student council was always involved in school events and their leadership skills shined. Through new leadership and eager student council members, the school thrived with different events provided by the council. - *Taylor Miles*

For Right: Taylor Miles, Olivia Gilpin and Susan Goley put out the balloons for the walkway that the homecoming candidates will use. Each year the student council is in charge of the homecoming ceremony. This year the theme was *fifties* and the gym was decorated in black, white and pink. photo by Barb Dougherty

This became one of the more popular events student council put on. It was a great cause and the students really enjoyed it. photo by Taylor Miles

Where Everybody Plays the Game

Hard Works Brings Rewards

Sports were an important aspect of life at Shawe. Nearly everyone participates in a sport at Shawe, and if they weren't on the team then they were in the stands supporting the teams. Everyone took pride in the athletic teams at Shawe. Whether the team won or lost, the support and effort was always present. Several accomplishments were made individually and through the different sports teams this year. "My greatest sports related accomplishment was hitting the 1000 point mark for basketball. It was a highlight of my senior year, but playing with all of the seniors for one last year was definitely the best part of basketball," said **Michael Kring**.

Although many Shawe athletes participated in multiple sports, there was usually one sport that was favored. "Not very many people like running, but cross country and track are my favorite sports. I have been running since sixth grade, and I've come to really enjoy it. It's been such a great stress reliever during high school. Running with some of friends on the team has been such a privilege and I'll miss it outside of high school," said **Sarah Torline**.

Spirit Improves Due to Wins

After what started out as a rocky season for the Lady Hilltoppers, they managed to pull out some big wins this year to lift the spirits of the girls on both the varsity and junior varsity teams.

Many comments were made about favorite games that were won as well as the excitement about winning more games this year than in previous years. Four year returning senior, **Susan Goley**, stated, "The best part about winning more games was that it meant we played better as a team this year. I had a great senior year and got really pumped up over every point we got and every game we won. Hopefully the girls will have an even better season next year."

Freshman, **Madison Drumm** recalled, "My favorite win was against Switzerland County because we all played really, really hard in all three games to come out on top with the final win. When we did beat them it made it that much sweeter." - *Kaylee Mingione*

Concentrating hard, outside hitter, **Liz Grote**, bumps the ball to setter, **Caitlin Kelly**, during the first sectional game. The Lady Hilltoppers played hard winning the first set, but ended up losing the final three. Just enough for the Rising Sun Shiners to run away with the game victory. photo by *The Madison Courier*

AMELIA KOEHLER

"My favorite part about volleyball this year was winning our first game and how excited we were."

MEGHAN SCROGGINS

"My favorite part about volleyball from this year was the bus rides with Stephanie, Amelia, Ivy and Caroline. We had a lot of fun!"

Set to Win

For many Junior High Volleyball players, this year was a learning experience. This was the first time for most of the seventh graders to actually play on a team for Shawe. Seventh grader, **Katelyn Moore** said, "The hardest part about playing volleyball this year was having time to finish all of my homework for the next day of school."

With new head coach **Susan Frede**, the team worked on the basics of passing, hitting and serving. "Throughout this year in volleyball I learned the proper way to serve overhand and to spike at the net," commented **Emalee Copeland**. This year might not have been a winning year, however according to the coach, the team is on the right track for a winning season next year. **Ivy Schafer**, an eighth grader, added, "My biggest improvement this year was my overhand serving. At the beginning of the season I could hardly get the ball over the net and by the end I could!"

Although the Junior High team will lose six eighth graders to the High School team, they should gain more girls with the upcoming seventh grade. The eighth graders will become a great asset to the high school team with the skills needed to keep up with the fast-paced game. **Bailey Wolf** added "I am most excited for next year so I will be able to have time to work on improving all of my volleyball skills, so I can in turn become a better member of the team." -*Brittney Snodgrass*

Coming Together

With very small numbers this year, the team easily came together and bonded. The small numbers never stopped the team from seizing the opportunity to interact with one another. Shawe's cross country team looked small and insignificant to other schools with large numbers, but the team proved themselves once they got out on the course.

Since there were only six students from Shawe running, students from Pope John stepped up to help out. When asked about running with her siblings **Hannah Miller** said, "It was pretty neat. I'm really proud of how far they have come, especially the twins since they are running as fourth graders."

Runners could be seen cooling off after a hard meet, or laughing with each other on the bus on their way back to Shawe. "My favorite part of Cross Country was how it helped me get to know everyone better, and I always had fun, even if I was in pain from running," recalled **Jordan Wentworth** when asked about the best part of cross country. The runners loved all of the down time that they had before and after meets, but despite that extra time, they still remained focused when it came down to it. The team considered the year a success, and looks forward to running again next season. -*Kimi Schaefer*

CHLOE STORM

"I thought that running down Hatcher Hill was the hardest part of cross country."

JANEY SEAVAR, 9TH

"I don't believe anything was easy in cross country."

Racing Ahead

Cross Country was a challenge for many runners. The 3.1 mile race can be grueling, especially on rough terrain. Many of the Shawe runners would tell you that pain is worth the gain you get from running.

"I think running is a great sport. You can pace yourself and set your own goals and personal challenges," commented **Chris Peterson**. Many runners did just that. They set personal goals for themselves, then worked hard to meet those goals throughout the season.

Campbell Higbie, one of the runners on the team with the fastest time, always told new runners to pace themselves. The team worked together also, not just individually. Team mates were always there to cheer on and support other runners.

Some runners were still faced with obstacles though. "Running was a challenge for me. Sometimes I didn't feel like going to practice or to meets, but my team mates were always there to support me and tell me to persevere in cross country. That helped me tremendously," noted **Janey Seaver**. Overall cross country was not an easy sport, but a great one to try. *-Olivia Vaughn*

Sarah Torline	24:25	Liz Grote	26:04

You Need Goals to Score Big

Too many, junior high sports were seen as a way to get accustomed to Shawe sports and teams. Junior high soccer players were given an opportunity to adjust to coaches, get a feel for seriously playing on Shawe turf and find out all of the hard work and determination it truly takes to be a Topper. Though the season of course had some ups and downs, many players agreed that the year as a whole was a learning experience. Even when faced with intense practices and devastating losses, the team was still able to respectfully hold their heads high and get through tough times. "It's always hard when your team loses, but that just motivates you even more to do better next time," said **Maddie Waller**.

When the team rang victorious, players exhibited themselves as good sports and celebrated without being too proud. And of course, you can't forget the main reason the players wanted to join the team in the first place: to have fun. "I loved hanging out with friends during practice and messing around during games. The season was a lot of fun and games were always a good time whether we lost or won," commented **Shannon Fry**. All in all, the season could be considered successful, with players learning vital skills to help them in their future endeavors of moving on to high school soccer. - *Abby Valkovci*

"My favorite part of soccer was how often we, as a team, made Coach Stack laugh."

ERIC GROTE, 12TH

"I really enjoyed being Captain and leading a great team to a successful season."

Race for the Goal

This season brought new students and some unexpected talent among the varsity team. When asked how he felt about stepping up for the goalie position **Kyle Daugherty** said, "Being the goalie has always been something I wanted to do, now that I get to play with my sister **Olivia** at the Varsity level it just makes things better."

Seniors **Eric Grote**, **Olivia Daugherty** and **Reggie Perry** really stepped up the intensity while on the field. The team as a whole truly bonded this season, this aspect was definitely shown by how the players connected on the field.

William Craig said, "Our team has really improved since the beginning of the year. We definitely play as a team, and I think that helps us out a lot on the field as well as winning games."

Throughout the entire season, the team worked hard and their record proves this. Even through ups and downs, the team stayed strong and proved to other teams that they were a force. While the players bonded their winning record grew. Overall, the season proved to be a successful one. -Taylor Miles

Love the Winning Season

Nothing can beat the feeling of winning a tennis match. It's the perfect reward after the intense volley of the tennis ball. After enduring the harsh sun and warm temperatures, the boys tennis players prevailed to have a winning season. One player, **Andy Ruess**, lone senior, went all the way to Regionals. He said, "Winning sectionals was bittersweet. I was proud of myself for winning, but losing as a team was very disappointing. I thoroughly enjoyed the season, though, with such a great team, coach, and supporting fans." Even though not all of the team members got a taste of Sectional victory, they still got the chance to feel the excitement from winning over half of their matches.

Most of the players are what we call veterans. They've been playing since they were freshmen and have basically been playing the same positions. There are exceptions though. Along with a few other players, **Franklin Belt** got the chance to play different positions. He commented, "I enjoyed getting to play different spots on the team. It helped me work on my skills."

The players look forward to coming back to play again next year for a shot at a big Sectional victory and another winning season. -*Caitlin Kelly*

MICHAEL MUESSEL, 11TH

"The funniest memory from this tennis season was chubby bunny with Alex Reuss, and seeing Luke toss a ceramic squirrel out the window."

NICHOLAS MCCUBBIN, 11TH

"My favorite memory was playing #1 doubles against Milan; Ben and I won 7 consecutive games and were victorious."

ALEX REUSS, 10TH

"The most memorable moment of this season was when I broke a kid's racket with my serve and also beating my record in chubby bunny."

Green, Green, Go Green!

Spirits were high throughout the entire season. Even though there were only four cheerleaders, they could be heard all over the gym. Every fan knew of their presence.

Eighth grader, **Megan Whitham**, said this about having a small cheerleading squad, "Being able to bond with all of the girls and getting to know each other on a more personal level was the best part of having a small squad." Together the cheerleaders made the season uplifting and fun.

They showed their ability to pump up the fans and really keep the crowd alive. When asked what her favorite part of cheerleading was, **McKay Burdette** had this to say, "My favorite part was getting to support the team while they were playing and having fun with my friends!"

The fans helped to maximize the cheer section. Each time the basketball team would score, the cheerleaders made sure the crowd was cheering along with them. The junior high cheerleaders never failed to show their enthusiasm even if the score was low. No matter what, the girls always showed their school spirit and smiled with Topper pride! - *Taylor Miles*

Two loveable cheerleaders, **Morgan Koehler** and **Bailey Wolf**, have fun during a time out. To show the crowd their abilities, these girls thought it would be creative to do a stunt while cheering. Performing stunts became an exciting way to show off their enthusiasm for the game. *photo by Taylor Miles*

Performing the cheer **Green, Green, Go Green** during a home game, the cheerleaders keep the game going by doing entertaining and upbeat cheers. These four always kept smiles on their faces no matter what cheer they did. *photo by Taylor Miles*

MORGAN KOEHLER, 7TH

"The best part of cheerleading was when the crowd was really involved in the cheers."

MEGAN WHITHAM, 8TH

"The best part of cheerleading was being with friends and cheering the boys on whether they won or lost."

BAILEY WOLF, 7TH

"The best part of cheerleading was talking to Mr. Varraye on the bus rides!"

Pumping Up the Crowd

Shawe cheerleading has been around for over thirty years, but there has never been a time when the squad held more than fourteen girls. That all changed when the Cheerleading Squad of 2011 welcomed twenty cheerleaders to the team. When put in front of the bleachers that were teeming with fans, the cheerleaders made an overwhelming statement about how serious these girls were about supporting their team through the victories and the losses.

Most of the cheerleaders came in their freshmen year and stayed until they graduated. By the time they reached that final year, the cheerleaders had seen the many ups, downs, twists and turns that a basketball team could experience. "The highlight of my cheerleading career was being a part of the sectional win. Cheering with my good friends was a plus also!" commented senior **Taylor Miles**.

Many people wondered why a young girl chose to be a cheerleader. The answer came easily to the girls, for some it was getting to lead the cheers that helped push the basketball team to victory, or getting to do fun things like dances and pep rallies. **Angela Goley** said, "I chose to do cheerleading because I wanted to be a part of something bigger than just standing in the crowd. There are so many fun things we get to do, and I liked being able to do those with my closest friends."

This year the cheerleaders had an amazing year. They got to cheer the basketball boys on to have a winning season, sectional victory, and runner-up regional victory. The girls got to experience one of the most exciting seasons in Shawe history. -*Caitlin Kelly*

GILLIAN WATKINS, 8TH

"My favorite part about basketball this year was all of the new friends that I made."

SHANNON FRY, 7TH

"Winning against Rising Sun's seventh grade team by 30 points was my favorite part about basketball this year."

KAITLYN BOEHM, 8TH

"My favorite part about basketball this year was playing in general but also getting to know my friends better."

Brusied but not Broken

With a good foundation set in previous years, the girl's basketball team was ready to begin their season. Without having to do a lot of work on the fundamentals of the game, such as the rules and how to shoot the proper way, the team was able to focus on different plays and perfect their shooting. Returning coach, **Steve Sims**, and new assistant coach, **Caasi Robertson**, added to the season by assisting the team to have a good time and good season overall.

The year had an abundance of injuries, some that could be treated with an adhesive bandage and others that had hours of pain and ice. Serious injuries or not, the team pulled through and ended up with a good overall record. **Megan Scroggins** commented, "When I broke my ankle during the game it was extremely painful. **Stephanie Snodgrass** and **Amelia Koehler** were trying to calm me down and make me laugh while I was fighting the tears. I ended up missing our last two games of the season, but I supported my team from the bench the entire time."

About half of the team's games were at the opposing team's gym. With the long bus rides, players on the team had time to not only become ready for their upcoming game but to have fun and to just relax. **Ivy Schafer** added, "I enjoyed both home and away games. As long as I could play basketball with my friends, it was a good season."

The eighth graders that were on the team, celebrated a very successful season. With the hope that a majority of the girls will continue on to play in their upcoming high school seasons, **Mrs. Rachael Baudendistel**, head Girls Varsity Basketball coach, was ecstatic. "The upcoming freshman will have a lot to offer the team next year. They work hard and it will be exciting to see the program grow." -*Brittney Snodgrass*

Points Earned and Lessons Learned

Whether the game resulted in loss or victory, the boys junior high basketball team always made sure to give it their all, showing great effort and impressive teamwork. Though their record was less than great, the team of seventh and eighth graders were still able to have some fun while improving their skills for future seasons. "Even if we didn't play our best, we still had fun and were always able to hold our heads high after a game," commented **Jesse Fitton**. The players tried to remain positive and hopeful throughout the whole season, always finding reasons to celebrate regardless of their record, and the year was spent teaching the young players new things and preparing them for playing on a high school team.

"Above all, the basketball season was just a lot of fun. We also really bonded as a team and worked on our teamwork and sportsmanship," interjected **Grayson Rhoten**. Even when trying to focus on winning and improving their abilities at the sport, the junior high boys basketball players still managed to have a laugh and a good time, no matter what. - *Abby Valkovci*

"The thing I enjoyed most was, after being out the rest of the year, seeing girls step up and have fun."

CHLOE STORM, 10TH

"The thing I enjoyed most about basketball this year was improving as a team and going to pregame meals."

Highs and Lows

Starting the season with a slim number of nine and ending the season with seven was difficult for the Lady Hilltoppers. They did manage to make it through the season as tough as one could be. There were many different highs and lows that the team faced. Injuries were a big low for the Lady Hilltoppers. However, winning a few games helped build the confidence the team needed to finish out the season. The underclassmen grew to become better basketball players. If you were to ask any girls basketball player they would tell you that they had fun this season, they just didn't come up with as many wins as one would want in the end. When asked what the hardest part about the season was this year, **Coach Rachel Baudendistel** commented, "It was hard to work on game situations and scrimmaging; however, we were still able to focus on fundamentals and improving skills."

With four big injuries that took place throughout the year, which happened to the four upperclassmen, it made room for the freshmen and sophomores on the team to step up and pave the way to take on important roles on the court.

"It was tough to have to watch **Jennifer** and **Kaylee** not be able to play their senior year, but I thought I took on the role down low pretty well. Those two seemed to think so too, by letting me know what I needed to work on and what I was doing a very good job at," said **Kayla Cieslinski**.

"Being a freshman and starting this year made me really nervous just because I didn't want to be the starting freshman, mess up and then everyone get mad at me. **Hana** and **Kaylee** really helped me throughout the year, and I think they and my coaches made me a better basketball player this year," stated **Taylor Grote**. Even with all the injuries that took place this year in the program, it was a building year for the girls basketball team. - *Kaylee Mingione*

Rising Above The Rest

The year was bittersweet for the Boys Varsity Basketball team, but it was full of great accomplishments. With it being Mr. Bomholt's last year to coach and the seniors final year playing together, the team took it upon themselves to make it one to go to in Shawe's history.

"When we practice, and prepare, and put all of the hard work into our practices then go out and win our conference and become sectional champions, I feel like the team has made great strides. It was a rewarding year," said Jake Sanders. All of the boys on the team had similar highlights for the year. "The best part of our season was winning sectionals and the first game of regionals," commented Nico Mingione.

The season was full of ups and downs, although mostly ups for the Hilltoppers. The season ended after a shot which felt like nothing other than a miracle. Even though the event was unfortunate, the team and everyone involved was proud of the accomplishments made throughout the year. -Kimi Schafer

"The greatest part of basketball was winning sectionals with my friends and being on ESPN."

MICHAEL KRING, 12TH

"Making it as far as any Shance team has made it was a great accomplishment and being on ESPN wasn't bad either."

An Awesome Season

This year proved to be successful for the girls Shawe tennis team. It was the second year for **Stephen Sims** to coach at Shawe. When asked about the season, **Coach Sims** was eager to talk about the success. "Coaching tennis for the girls at Shawe has been awesome! Really, I couldn't have asked for a better group of girls to be coaching. It was a bummer that the year ended and we lost my favorite senior, but I'm already pumped for next year. I think it's going to be even more successful."

The tennis team showed experience on the court, and although the majority of the team was young there was still leadership shown from the upperclassmen that did play. The season was full of ups and downs, but after a big win over cross town rival, Madison, everyone was in good spirits for sectionals. "It was really exciting this season to see all of my teammates compete so well. Everyone improved tremendously from last year and to the end of this year. For me, my biggest feat came against New Washington. Not only was it a big confidence booster, but everyone played so well and it really gave us the push we needed to succeed for the rest of the year," said singles player, **Liz Grote**. -Kimi Schafer

CHLOE STORM, 11TH

"I really enjoyed getting to play with my new doubles partner, Taylor Davis. We are the number one doubles team in Southern Indiana!"

Run Like the Wind

The track season brought along many trials and tribulations, but many laughs and fun times as well. **Conner Applegate**, a new student in the 2010-2011 school year, had this to say about track: "Being a new student at any school can be difficult when you're worried about making friends and fitting in. Luckily I found I was accepted here by many, and putting myself out there by joining sports teams like the track team really helped me get closer to my peers. The track team is like a little family!"

The team as a whole worked together and supported each other throughout the whole season. "There were times that really weren't fun or enjoyable, and I just wanted to give up for the day, but overall all my friends that ran track with me were always able to lift my spirits and make me laugh!" commented **Hannah Miller**. - *Abby Valkovci*

"Hanging out with my friends at the track meets and practices was my favorite part about track this year."

Just Keep Running

As a runner is approaching a finish line, many things come to mind. Whether it is finishing, beating their time from a previous race, or just beating one specific person. One thing is for sure, every runner tries their best, which in turn makes them a quality member of the team.

"This season was great! Everyone seemed to achieve their personal best, and we have a great coach to thank for that!" commented **Taylor Miles**, who was named most valuable female athlete of the season.

As with all teams, the track team had things to work on and improve on throughout the season. **Josh Patrick** stated, "The hardest part about running track this year was the running in general." With the teams hard work and determination, they broke many of their own records and even placed among the larger schools.

As a small school, all of the members of the track team have to work together in order to succeed. Whether it be running, throwing or jumping, all of the team members stuck together and tried their best to make the season great. *Brittney Snodgrass*

JACOB SANDERS, 12TH

"My favorite part of the season was getting to play golf with my best friend. I had never played on a team before, and it was nice to be able to play another sport with him."

JOEY MINGIONE, 10TH

"The best part of the season was when Eamon got nailed with a golf ball in his side when playing in a match."

ERIC GROTE, 12TH

"The highlight of the season for me was during Sectionals when I scored a 69 and won medalist. It was the best I've done all year."

Four!

When Springtime rolled around, everyone expected warm weather and sunshine, but this year Mother Nature dealt the players of Spring sports a nasty hand. It took an especially hard toll on the golf players. "We're used to jumping right into things when golf season comes. It usually takes about a few weeks to get into the swing of things, but because of the weather it took like a month and a half," commented **Michael Muessel**.

A Sectional win was on the agenda for the team. Although they didn't win, they still made the top three and advanced into Regionals. The whole team wanted a Regional victory to bring home, but all of them set their faith in their two seniors, **Eric Grote** and **Nico Mingione** to advance and go on to State. **Nico** said, "I made it to State last year, hopefully I can do the same but this time bring home the win. That would be the perfect ending to my high school career." -*Caitlin Kelly*

"My favorite part of playing softball was being able to play shortstop this year."

OLIVIA DAUGHERTY, 12TH

"My favorite part was getting a chance to get to know underclassmen and spending time with my best friends."

SARAH SANDERS, 9TH

"My favorite part was the away games, because the bus rides were awesome. Having fun in the dug out with everyone was great too."

Helping Out the Team

The season started off like any other season, the girls were ready to play, and they were excited about some new teammates. Foreign exchange student **Hanna Backlund** tells us about her softball experience, "Playing softball was so much fun! It was a new sport for me and getting to know new people was great too!" Everyone had high hopes for this season.

With a couple of injuries and a few set backs, the girls really pulled together to keep the team alive. Some team members began to truly understand different positions. To help out the team, **Stephanie Scoggins** had to pitch for teammate, **Tori Valkovci**, while she was injured for the last games of the season. **Stephanie** told us about her encounter with a new position, "Pitching was not my favorite position, actually I don't even like to pitch, but I knew that I would be helping the team as well as helping one of my friends, so I did it." Through all of the injuries and switching positions, the girls truly bonded with one another and grew to know each others strength and weaknesses. This especially helped while on the field.

The season came to a close with great laughs and good times, although the girls did not have the record they had hoped, they tried their hardest. - *Taylor Miles*

Shooting for the Top

After winning more games this year than what they have in the past four years, every baseball player's spirits were lifted, especially after receiving runner-up in the Ohio River Valley Conference. All the boys found ways to pick one another up during the tough times, as well as all celebrate after the big wins they had. They all knew what it was going to take to become a successful baseball team.

Four year returning senior, **Aaron Copeland**, had some words to say about all the wins the baseball team received this year, "The wins feel great! It was a complete turn around from last season's zero recorded wins. The best part is that it is my senior year, and we have a chance to end the season over 500, which I haven't done since I've been at Shawe. We also placed second in conference, and that hasn't been done here in the baseball program since I don't know when."

Not only were all the seniors excited about all these wins that took place, but the underclassmen were pretty excited as well. Never in the past four years has the baseball team won as many games as they did this year, so, with those wins, it got everyone, including the fans, more involved.

When asked what he was looking forward to most about being a senior baseball player next year **Franklin Belt** exclaimed, "The thing I'm looking forward to most next year is to just be a senior in general and to see if we can keep improving on our wins and get more and more every year. After coming in this year and not winning a game since April 2009 we really showed what we were made of, so I also really enjoyed that. Just being apart of the team was absolutely amazing as well!" - *Kaylee Mingione*

Letting the Jac-Cen-Del base runner know he is there with him, **Jesse Ball** gives him a little push off. The rivalry runs deep between Shawe and Jac-Cen-Del, but always managed to stay friendly as well. *photo by Barb Daugherty*

DAWSON FAIR, 12TH

"The best part about the season was finally winning games and being competitive in games."

KYLE DAUGHERTY, 10TH

"The best part about the season for me was when I hit my first homerun at Switzerland Co."

MATT ARMSTRONG, 12TH

"I think the best part about the season was getting over our two win seasons and actually competing and winning."

Playing On Your Own Time

Shawe has many privileges, but some student find opportunities elsewhere, while still experiencing the great moments at school. Students and teachers alike share the same need to stay active on their own time.

"Instead of doing school sports during the spring, I do 4-H and participate in horse shows. I have two horses, Candy and Prince. I show Candy in Open Shows and both of them in 4-H shows. I also show rabbits and goats during 4-H. I've been doing this for eight years now and it's one of my greatest joys. I have made so many friends, and it's something that I will take with me for the rest of my life," said Cassey Higdon.

Alternative sports offer opportunities for students to bond with each other outside of school. Several sports that were participated in included snowboarding, skiing, wake-boarding, and skate boarding. Some students brought sports to Shawe that weren't initially offered. Hana Roberts and Bailey Davis both participated in Varsity Golf. Hana ended up placing third in the conference. It was quite an accomplishment for the new team at Shawe. Liz Grote also had several achievements for the swim team. Liz was an independent swimmer for Shawe for the second year. She ended up single-handedly beating two teams in sectionals, making it quite a successful year for the Shawe Swim Team.

Dull, lackluster days were made more enjoyable with sports. Bonds shared between teammates were also kept forever. "Playing Ultimate Frisbee with my friends after school has been something that I always look forward to. It's relaxing while competitive at the same time. Being able to pick up a frisbee and play with my friends at any given moment is great. There isn't any stress like there is with some sport at school," commented Nicholas McCubbin. -Kimi Schafer

Chemoign Drumm tries her hand at ice-skating while in Washinton D.C. for the Pro-Life March. photo by Caitlin Kelly

SHELBY GREENE, 9TH

"I do competitive dancing outside of school. We travel to preform in competitions."

IAN WATKINS, 11TH

"I don't participate in any sports at school, but I'm 100% a skateboarder and 300% a jellufish wrestler."

BROGAN DRUMM, 12TH

"I love riding my bike! It's such a relaxing way to stay active."

Where Everybody Pitches In

Selling is Key

Journalism class is not only about creating a fantastic yearbook. The students must also sell advertisements in order to have a yearbook with color and many pages.

The students quickly realized that selling ads and fundraising was one of the major contributors to the yearbook. Not only did the students have to call businesses to ask if they would buy ads, but they also had to attend other fundraising events such as Gatti's Night, Franco's night, and selling dress down passes. When asked which method of fundraising she liked better senior, **Kimi Schafer**, said this, "I must say I like selling ads because I love speaking with people that I know around the Madison area. It made it easier for me to sell to them because I felt comfortable speaking with them." Others enjoyed pizza nights, "I think Gattis nights are fun because I can sit with my journalism friends and enjoy dinner while working," said **Caitlin Kelly**.

Fundraising is the key to a successful yearbook. The advertisements ensure students receive an outstanding yearbook.

Story by Taylor Miles
Photo by Erin Poyner

Eagerly trying to sell ads, Brittany Snodgrass is overjoyed to hear a "yes" on the other end of the phone. Selling ads became difficult towards the end of the semester for some, other students found selling to be the easy part.

Concentrating on advertising Caitlin Kelly, Kaylee Mingione and Kimi Schafer work hard to sell as many ads as they can to ensure a yearbook filled with color.
photo by Erin Poyner

As Abby Valkovi prepares to call advertisers she reads through the list of businesses yet to be asked. The journalism students kept an organized list of advertisers organized.
photo by Erin Poyner

Writing up an ad she just sold Taylor Miles is joyful to complete the number of ads needed for that week. Each week the journalism students had a specific number of ads that needed to be sold.
photo by Brogan Drumm

Speaking with McCubbin Motors, Olivia Vaughn persuades them to buy an ad for the yearbook. McCubbin Motors was a generous supporter each year.
photo by Erin Poyner

Brooke Morrison's first kiss was Jordan Chandler. If Kaylee Mingione could date anyone that wasn't in her class it would be Branden Callis. Elizabeth Stucker thinks the Freshman class are the biggest drama queens.

Olivia,
May all your dreams come true!
We love you!
Mom, Dad and Kyle

Stephanie,
Do you know how much you mean to me? As you grow into what you will be. You came from within, from just beneath my heart it's there you'll always be though your own life will now start. You have grown so fast it sends me awheel, with misty eyes I ask, where is my little girl? I know sometimes to you I seem hard and so unfair, but one day you will see, I taught you well because I care. The next few years will so quickly fly, with laughter and joy, mixed with a few tears to cry. As you begin your growth to womanhood, this fact you must know, You'll always be my source of pride, no matter where you go. You must stand up tall and proud, within you feel no fear, for all your dreams and goals, sit before you very near. With God's love in your heart and the world by its tail, you'll always be my winner, and victory will prevail.
We love you so much!
Mom and Dad

"Oh the places you'll go, and the people you'll see!"
Sarah, we are proud of you!
Love, Mom, Dad, Erin, Evan and Cinnamon

Andy,

I sometimes wish you were still small, not yet so big and strong and tall. For when I think of yesterday, I close my eyes and see you play.

I often miss that little boy, who pestered me to buy a toy. Who filled my days with pure delight, from early morn to late at night.

We watch our children change and grow, as seasons come, then quickly go. But our God has a perfect plan, to shape a boy into a man.

Today, my son, I'm proud of you, for all the thoughtful things you do. I'll love you till my days are done. And I'm so grateful you're my son.

Love, Mom, Dad, Alex and Joe

Tori,
What we are is
God's gift to us.
What we become
is our gift to
God.
We Love You!
Dad, Mom, John,
Abby, Anna

"I've missed more than 9000 shots in my career. I've lost almost 300 games. 26 times, I've been trusted to take the game winning shot and missed, I've failed over and over and over again in my life. And that is why I succeed. Obstacles don't have to stop you. If you run into a wall, don't turn around and give up. Figure out how to climb it, go through it, or work around it."
-Michael Jordan

We believe that you can get past any obstacle.
Always know that we are here to help get past them if you need us.
Cameron and David

According to **Mary Strange**, **Aaron Copeland** is the cockiest senior. **Abby Valkovci's** greatest weakness is being too nice. **Max McGee** has never been on a roller coaster. **Crystal Rios** trusts **Sarelia Rios** the most out of all of her friends.

*Congratulations Jennifer!
You have the next four
years of life planned out
as you begin your
nursing career at JUS in
the fall. We could not be
any prouder of the young
lady that you are
becoming!*

*Love always,
Mom, Dad and Kelsi*

*Brogan,
The day you were born we
felt the heavens open up
and fell in love with you.
As a two year old you
loved acting and singing,
we loved it. Watching you
grow into the beautiful,
caring young woman has
truly blessed us. Always
put God first. We wish
you all the best in every-
thing that you do!*

Love Ma-maw & Pa-paw

*Kimi,
We are so proud of
you and your
accomplishments
over the years.
You have such a
wonderful future
ahead of you!*

*We love you!
Papaw & Mamaw
Barnes*

*Eric,
We are so proud of all you have become
and look forward to the wonderful things
you will do. Remember we love you always
and forever!!! Thank you for being you and
standing up for what you want and believe,
continue to always. You continue to bring
us so much joy and laughter with you
contentious smile and enlightened sense of
humor. We feel so blessed that God sent
you to us!!! You are one in a billion!!! We
know you will do just fine but when times
are hard, remember to look above and
pray.
O God and Heavenly Father,
Grant to me the serenity of mind to accept
that which cannot be changed; courage to
change that which can be changed, and
wisdom to know the one from the other
through Jesus Christ our Lord, Amen.*

*With all our love,
Mom and Dad*

Campbell,

*What you cannot
escape, you must
fight; what you
cannot fight, you
must endure.
-L.Saintcrow*

*Love,
Mom and Dad*

Congrats Matt!

*May you be given an anchor of faith,
rudder of hope, sails of education, and
the paddle of family to keep you giving.
Love, Grandpa*

Jenna Armstrong thinks Nico Mingione is the cockiest senior. The worst gift Patrick Bear ever received was a Barbie. Gillian Watkins' greatest weakness is she is tickleish EVERYWHERE!

If **John Valkovci** could live anywhere, he would live in outer space. If **Shannon Fry** could date anyone in the school, she would date any boy from the sophomore class. According to **Ivy Schafer**, **Andy Ruess** is the best dressed in the school.

Kimi, Susan, Olivia, Taylor, and Tori:
It was great to see your talent and love for volleyball grow over these last years. We are proud of everything that you have done and will do in your future.
Coach Dennis Kilgore and Coach Kevin Jones

Jordan,
We are so proud of you. Good luck at Ball State. We know that you will do great.
Love,
Mom, Rich, Kayln and Ashley

Brogan Marie Drumm

Our first and our heart.

The eighteen years has flown by too fast and its left us breathless! As have you. From a tiny, red capped, creamy pillow of fluff, you've grown into a captivating, beautiful young woman of whom we are proud. Keep reaching for the stars, with God in your mind and heart, and you'll be a star! Remember DPYP!
Love, Mom and Dad

*Kaylee,
Congratulations!
You are on your way to new beginnings. We are so proud of you and we will always be there for you. We love you more than you will ever know.*

*Love,
Mom, Scott, Logan and Courtney*

*Kimi,
We are so proud of you and all that you have done.
We wish you the best of luck as you apply all that you have learned to your upcoming journey.
Love, Grandman and Grandpa Schafer*

Michael,
We are proud of you! Congratulations on all of your accomplishments. All of your hard work has paid off and we are confident that you will have continued success. We will always be here for you.
Love, Mom, Dad and Drew

The first thing that **DJ Scoggins** looks for in a guy is their religious beliefs. If **Franklin Belt** was one foot tall, he would win a limbo contest. **Ian Banta's** favorite cartoon is *Tom and Jerry*. **Josh Patrick's** dream pet is a tiger.

Congratulations Kaylee and Nico!
We are proud of you!
Love, Amy, Steve and Jesse

Brogan Marie Drumm
Since the beginning you have held a special part of our hearts. You are our star, and you are a wonderful young woman. Your faith is your strength, and whatever you do in life, it will lift you up. Your compassion will forever give you friends, and your talents will take you far, but your faith is the biggest part of you. Congratulations to our beautiful number one!

Love,
Grandpa, Nana, Elizabeth and Caitlin

Kimi,
We love you so much and are so proud to call you ours! We will love and miss you very much! Congratulations!
Love, Mom and Dad

Nico,
We are so proud of you! We see a bright future for you ahead. Good Luck at Hanover College.
Love, Grandma and Grandpa

Kaylee,
We are so proud of you! Good luck at Western Kentucky University. We love you and take care.

Love, Grandma and Grandpa

Ground Breaking

On a sunny day in April, the whole school, joined by the elementary school, gathered together by the side of the building to watch the groundbreaking ceremony. This first ever ceremony of its kind marked the beginning of construction by the side of the building to add in new classrooms. The groundbreaking ceremony included talks of the future and also a blessing on the school grounds by Father John Meyer, while the entire student body stood by and watched the first clumps of dirt shoveled out, both indicating the start of the process and celebrating a new beginning. "It was interesting to get out of class to watch the ceremony," said **Stephanie Scoggins**.

Before the major construction even started, students and faculty had to get used to changes; the trees in the area were relocated, parking spaces were reduced and the side entrance was entirely useless. The process of adding in new classrooms was one that took time and effort, of course, but also required that everyone it affected was open to little changes. "It was really annoying at first, not being able to use the side door in the morning and to go to Spanish class," commented **Kalyn Robsion**. "But it'll be worth it once they're finished." The ceremony helped the schools realize how important this project was - the addition of new learning space will be utilized in the 2011-2012 school year, finally giving some teachers classrooms of their own.

- Abby Valkovci

Collin Hambrick steadily holds a bowl of holy water to assist **Father John Meyer** as he leads the school in prayer and blesses the ground before construction begins. *photo by Erin Poyner*

"I thought the ceremony was a pretty neat thing for our schools to do."

-Hannah Miller

Having the honor of ceremoniously digging up the first scoops of dirt, Jerry Bombholt, Mayor Tim Armstrong, Jill Meyers and Father John Meyer shovel into the dirt, officially beginning the construction project. *photo by Erin Poyner*

Both the high school and the elementary school came out to watch the groundbreaking ceremony. Students of all ages joined faculty and staff of both schools to witness the event. *photo by Erin Poyner*

Sharing a laugh, Megan Scroggins, Myles Hessa, Amelia Koehler and Stephanie Snodgrass stand together and watch the ceremony take place. The whole school came together as one to hold the ceremony, giving friends plenty of opportunities to have their fun with each other. *photo by Erin Poyner*

Phil Kahn casually delivers an impressive speech as the ceremony begins. The president of our school system talked passionately about the schools, focusing on the benefits the additional classroom space will bring to both the students and the faculty once they're built. *photo by Erin Poyner*

Everybody Knows Your Name

Not only did the year begin with a bang, but it ended with one as well. Whether one was a senior who looked forward to opening a new chapter in their lives by graduating and moving on to college, or an underclassmen who looked forward to the upcoming summer months, everyone seemed excited to take on their future.

Senior, **Brogan Drumm** commented, "After Graduation I'm looking forward to a really long summer full of sleepless nights and adventurous days, and of course I'm looking forward to college and meeting a ton of new people!"

The seniors had plenty to look forward to once the end of the year rolled around. They weren't the only ones, many underclassmen had things to look forward to as well, such as Shawe Games and the Healthy Hilltopper Walk.

John Cockburn stated, "I always look forward to Shawe games at the end of the year, just because we get to have fun all day long, hang out with our friends, and not worry about school at all for an entire day."

Everyone at Shawe always seemed to have a great time, not only at the end of the year with Prom and Graduation, but throughout the year. There were so many things one looked forward to at Shawe. - *Kaylee Mingione*

Before stepping up the ladder to cut down his piece of the net, **Nico Mingione** hugs **June Bomholt**. June told him how proud she is of all the boys after the second Sectional victory in a row.

photo by Barb Dougherty

“Shawe just has so many fun activities!”
-Bailey Wolf

Dressed up during sectional spirit week, Cameron Rampy and Sommie Tilley pose as a boy and girl during gender bender day. Sectional spirit days always seemed to get students at Shawe to participate in some sort of way, especially on days one would not have to wear their school uniform. *photo by Abby Valkovi*

Waiting for his numbers to be called, Clayton Elsbury lays down yet another chip trying hard to get a Shawe Bingo! *photo by Erin Payner*

Helping out after the Goodwill clothing drive held at school, Andy Reuss and Alex Reuss use their strong muscles to toss all the extra clothing bags into the big Goodwill truck. The clothing drive is an annual event at Shawe, it gets the classes, as well as teachers, to compete against each other to see who can bring in the most clothes. The winner gets a pizza party. After the junior class won last year, the sophomore class took the crown this year. *photo by Kaylee Mingione*

Posing as the 2011 Sectional Champions, the cheerleading squad and Boys Varsity Basketball Team all smile and hold up their number one's for the second year in a row! *photo by Barb Daugherty*

Colophon

The 2011 Connoisseur staff was compromised of 7 students: seniors Taylor Miles, Kaylee Mingione, and Kimi Schafer; junior, Caitlin Kelly; sophomores, Brittney Snodgrass and Abby Valkovci; and freshman, Olivia Vaughn. The programs QuarkXpress and Adobe Photoshop were the programs used to produce the yearbook. Interstate Studio took school photos, club photos, and fall and spring sports photos. The Madison Courier took winter sports photos. Numerous photos were taken by Barb Daughtery of Ice Pie Photography and used for the purpose of the coming together of this year's Connoisseur. Digital Printing, Inc. printed the book for the thirteenth year, with George Jackson and John Burrell coming to the aid of the new advisor, Erin Poyner.
